BERLIN, March 14.—More than 50 patients and nurses were killed or buried alive under debris last night when British raiders bombed two hospitals at Hamburg, an official German announcement said today.

The institutions hit were the Barmbeck and St. George's hospitals, the announcement stated.

**Second Attack**  
They were blasted by R. A. F. raiders which attacked Hamburg for the second successive night.

At the same time, returning German planes reported that hundreds of German planes that raided the Scottish ship-building port of Glasgow devastated a four-mile corridor of docks, shipyards and storage establishments during the night.

The German attacks on Glasgow, Liverpool, Birkenhead, Hull and other English and Scottish centers were among the heaviest of the entire conflict. The raids on central Scotland were the heaviest that area has sustained since the war began, Berlin cables declared.

**Most Widespread Raids**  
Berlin authorities described the attacks as the war's most widespread series of fire-kindling assaults.

An official announcement said unanimous reports from the crews of the hundreds of German bombers that hammered Glasgow said the four-mile corridor in the harbor area was severely hit.

They added, this announcement said, that Glasgow warehouses, a power station, grain silos and a gas works formed a "veritable ocean of flames."

Liverpool and Birkenhead were bombed severely, the communique added, resulting in many large fires and explosions, while war-important objectives at Hull also were bombed.

### PA NEW OBSERVES

Eleventh hour rush is under way at the Income Tax office in the federal building, as belated reports are being compiled and filed. Saturday is the last day for filing income tax reports this year.

New license tags for autos in Pennsylvania will be legal on Saturday. Some drivers apparently believe that the plates can be used as soon as received, as some of the new tags have been seen on cars here. The new license plates are a little different from those of former years, carrying a notation that the tags expire on March 31, 1942.

Pavements are not the only thing that have been heated by the weather of the winter. A lot of sidewalks also give evidence of the result of the freezing and thawing of the past few months.

### Daily Weather Report

United States weather statistics for the 24-hour period ending at 9 a. m. today are as follows:

Maximum temperature, 37.  
Minimum temperature, 13.  
Precipitation, trace.  
River stage, 8 feet.

Statistics for the same date a year ago, follows:

Maximum temperature, 41.  
Minimum temperature, 27.  
No precipitation.

### Elected To Commons

MRS. RATHBONE

Nominated without opposition in Bodmin district, England, Mrs. Beatrice Clough Rathbone, 30-year-old Boston-born woman, will take a seat in the house of commons. The second native U. S. woman to be elected to commons, Mrs. Rathbone is the widow of the late Planché Lieut. John Rankin Rathbone, R. A. F. pilot killed during a flight over Germany. Lady Astor was the first American woman member of the house.

### Early Opening Of Sanatorium At Butler Unlikely

(International News Service)  
HARRISBURG, March 14.—House Majority Leader Leo A. Achteman today accused the James administration of being "guilty of a cruel deception" by not providing in its biennial budget for the adequate care of tuberculosis victims.

"We have discovered that in spite of his lavish promises of adequate facilities for tuberculosis victims, the government does not intend to operate the western tuberculosis sanatorium at Butler," said the Democratic leader. "His decision will deprive between 500 and 600 patients of hospitalization."

"This shocking fact was discovered through an analysis of the James budget message and examined by the appropriations committee of Dr. John J. Shaw, secretary of health," said Achteman, who is appropriations committee chairman.

### Stranger Lands In Eire By Parachute

(International News Service)  
DUBLIN, March 14.—A "stranger" who declared he landed in Eire territory by parachute from a German plane during the night has been arrested at Taghmon, County Wexford, the government announced today.

The captive said he alighted at Ballycullin and walked to nearby Taghmon in the southeastern corner of Eire.

### Munitions Blast Shakes Seville

(International News Service)  
SEVILLE, Spain, March 14.—A terrific explosion rocked Seville at 10 a. m. today, injuring at least 80 persons and causing an undetermined number of deaths.

Numerous houses were wrecked by the blast, caused when an ammunition dump blew up at the Sierra Del Aquila quarter on the outskirts of the city.

Many Seville streets were strewn with glass from smashed windows.

### New Super Divebomber Created In America

(International News Service)  
NEW YORK, March 14.—Creation of a new "super" dive-bomber, capable of travelling 100 miles an hour faster than any other plane of its type in the world, was announced today by Rudette S. Wright, vice-president of the Curtiss-Wright corporation.

The plane, designed for the United States navy, is able to carry twice as many heavy bombs as any existing dive-bomber, fly twice as far as any present models and remain in flight four and a half hours longer, Wright declared.

Designed to be operated from aircraft carriers on extended scouting and bombing missions, the plane was described by Wright as "the most powerful dive-bomber ever built in America or abroad." It is powered with a 1700 h. p. engine.

While unable to reveal the details of its armament or performance because of military reasons, Wright said that the plane incorporates unusually heavy armament thus achieving greater power than any other single-engine naval plane.

### Jimmy Stewart To Be Inducted Into Army Soon

Screen Star Informed He Will Begin Army Service On March 22

(International News Service)  
HOLLYWOOD, March 14.—Screen Star Jimmy Stewart was advised today that he will be inducted into the army on March 22.

Stewart, who recently won the award for the screen's top actor in 1940, heads a group of 19 Hollywood selectees who were called in the draft, but none of the others were actors.

The actor won his "oscar" on February 28 for his work as the young reporter in the movie version of "The Philadelphia Story."

Prior to that, however, Stewart had risen to \$3,000 a week stardom for his work in "Destry Rides Again," "The Shop Around the Corner," "Small Town Girl" and "Next Time We Love."

Recently, on learning that he was likely to be drafted at any time, Stewart went to his draft board and volunteered for immediate service.

He was told that he was 10 pounds overweight and was given a Class B rating—and then Stewart started to eat his way into the army. He ate constantly and partook of rich foods. When he felt he had gained enough, he applied again as a voluntary selectee and was accepted.

The actor has a pilot's license and may apply for aviation service.

GLEN COVE, N. Y., March 14.—After serving four years in the navy, Anthony M. Negro returned home today to find a letter— notifying him to report to his local draft board Monday for induction into the army.

### Delivery Of War Material Is Under Way

(BULLETIN)

(International News Service)  
WASHINGTON, March 14.—Deliveries of war materials to Great Britain under the lend-lease act already have been started. Secretary of War Stimson revealed today.

Stimson, at a press conference, declined to discuss details however. He merely said deliveries "have been started from the places where they were deposited."

"I don't care to go into the present negotiations with Great Britain," Stimson told reporters. "I don't think it would be fair to Great Britain to let her enemies know what she is getting."

Stimson emphasized that he did not intend to discuss details of transfers to Great Britain until they were "properly announced."

### Food Situation In France May Be Exaggerated

President Indirectly Confirms Belief Which Prevails In Official Quarters

(International News Service)  
WASHINGTON, March 14.—President Roosevelt today indirectly confirmed the belief which prevails in official quarters that the Vichy government is exaggerating the seriousness of the food shortage in France.

Commenting at his press conference on the French government's repeated appeals for food, the president said he would like to throw out the suggestion that people should be very clear in their facts about the food situation in Europe.

He added that there is not much doubt as to actual lack of food-stuffs to keep body and soul together in Spain, but as to other parts of Europe, people should be sure of their facts.

The president's statement was in line with private reports received by this government indicating the French people are not as near the brink of actual starvation as the Vichy government and its representatives claim.

Meanwhile, it was learned the American government has received information that factories in the unoccupied regions of France are making war supplies for Germany.

### Shipyard To Be Built In Florida

(International News Service)  
JACKSONVILLE, Fla., March 14.—Selection of Jacksonville as the site for a \$25,000,000-to-\$40,000,000 shipyard, with a working personnel of between 25,000 and 30,000 and 25 ways, was announced today by Walter A. Jones, Pittsburgh industrialist, who said he headed the corporation that selected the site.

The announcement said the annual payroll of the firm would run better than \$25,000,000.

WASHINGTON, March 14.—America's first major aid to Britain will be designed to help foil Germany's "starve England" campaign, it was reported today as congressional action was rushed on the \$7,000,000,000 lend-lease appropriation.

Some members of congress, who heard cabinet and army officers appeal for early approval of the aid funds, gained the impression that Chancellor Hitler's threatened invasion of Britain may be postponed.

The No. 1 threat facing the British, some members asserted after the hearings, is the destruction of shipping by Germany's submarines and long-range bombers.

**To Combat Menace**  
To combat this menace, American aid, it was predicted, will include bombers which can patrol sea lanes and protect merchant vessels and light ships for hunting down submarines. Food also will be shipped, it was said.

The house appropriations deficiency subcommittee, which is considering the funds bill called William S. Knudsen, O. P. M. chief, Budget Director Smith and naval and army officers for testimony.

Hearings are scheduled to close today. The bill will be thrust before the house Tuesday.

### EXPECT PEACE IN CONTROVERSY ON COAL WAGE

NEW YORK, March 14.—A peaceful settlement before the April 1 deadline seemed likely today in the wage controversy between the nation's 450,000 bituminous miners and the soft-coal producers.

Neither side was budging an inch at this early stage of negotiations for a new two-year contract.

But it was evident that in view of the national defense situation neither operators nor miners wanted to be put in the position of being responsible for precipitating a tie-up of work in the coal fields.

Today a group of ten-five operators and five miners—were handling the negotiations in behind-closed-doors sessions. It is expected they will drag on for a week or 10 days before the situation comes to a showdown.

By that time, it is generally believed, a peaceful solution will be in sight.

### President On Radio Saturday Evening

Will Discuss Over National Hookup Aims New Lend-Lease Bill

(International News Service)  
WASHINGTON, March 14.—President Roosevelt, speaking over all radio chains, will address the nation from 9:30 to 10 p. m. EST tomorrow night on his first under the lend-lease program. It was announced at the White House today.

Mr. Roosevelt will deliver the address as a guest at the annual dinner of the White House Correspondents Association.

In his immediate audience will not only be the Washington correspondents, but most of the nation's leading editors and publishers. Lord Halifax, the British ambassador, Wendell L. Willkie, the 1940 GOP presidential nominee; members of the supreme court, Mr. Roosevelt's cabinet and other high government and diplomatic officials.

### British Bombers Pound Hamburg In Heaviest Single Attack By R. A. F.

(BULLETIN)

(International News Service)  
LONDON, March 14.—In the heaviest single attack since the R. A. F. has launched since war began, British bombers pounded the German port of Hamburg last night for the second successive time within 24 hours, London authorities disclosed today.

An air ministry communique termed the newest assault on Hamburg

successful, but from other sources it was revealed the attack was the most severe the R. A. F. has yet unleashed.

**All-Out Offensive**  
It represented a continuation of the British "all-out" aerial offensive which began the previous night with stunning raids against Berlin, Hamburg and Bremen.

BELGRADE, March 14.—Any Yugoslavian concessions to Germany must be in accord with the "real interests" of the nation, Belgrade authorities insisted today as negotiations went forward with Nazi Germany.

For the moment conversations between Belgrade and Berlin are being conducted through ordinary diplomatic channels as the two governments seek a compromise agreement regarding the extent and form of Yugoslavia's forthcoming declaration of solidarity with the Axis powers.

According to latest indications, the Yugoslavian government now is prepared to accept a pact of non-aggression and eternal friendship with Germany and a diplomatic instrument giving formal shape to existing economic relations between the two countries.

Date of departure of Premier Dragisa Cvetovic and Foreign Minister Alexander Cincar-Marcovic for Vienna to confer with Chancellor Hitler once more became uncertain, although previous plans had called for them to leave tomorrow.

Geneva, March 14.—Negotiations between Germany and Yugoslavia have broken down because of the latter's flat refusal to permit entry of Nazi troops, the usually reliable newspaper journal De Geneve reported today.

The same newspaper reported definitely that Turkey will intervene if Yugoslavia is attacked.

### President Is Studying Plan To Halt Strikes

(International News Service)  
President Roosevelt today studied recommendations for a national mediation board which, if set up, may bring an end to strikes and threatened strikes that have stalled assembly lines and muted the slapping of factory belts in many plants devoted to production of national defense materials.

That the board was shaping up was indicated following a conference of labor and industry experts with Mr. Roosevelt. The conferees were Secretary of Labor Perkins, Industrialist William S. Knudsen and Labor Leader Sidney Hillman, the latter two co-directors of the office of production management.

By unanimous agreement, they lay before the president a proposal that a federal board of mediation be set up.

Meanwhile, employe and management groups—in some instance with federal consultants sitting in—continued conferences aimed at resumption of national defense production through settlement of existing labor disputes.

LONDON, March 14.—Nazi raiders smashed at Glasgow and other English and Scottish centers last night and early today in fierce retaliation for the stunning R. A. F. offensive against Berlin, Hamburg and Bremen.

Casualties were feared heavy in the Glasgow area, where explosives wrecked many homes, a hospital, schools and churches.

The air ministry announced British fighters destroyed eight German bombers during the night—one less than the previous night's record-breaking "bag" of nine.

**Heaviest Assault**  
Reports from Glasgow said the crash of heavy bombs and terrific anti-aircraft fire resounded throughout the night as the Nazis delivered one of the heaviest assaults of the war on central Scotland.

While the Nazi raiders roamed up and down the British Isles, R. A. F. bombers delivered another blistering assault upon the German port of Hamburg, which felt the fury of British bombs for the second successive night.

An air ministry communique stated the new assault on Hamburg was "successful."

### British Economist Coming To America

Will Discuss British Problems With Officials At Washington

(International News Service)  
LONDON, March 14.—Prime Minister Winston Churchill has asked Sir Arthur Salter, British economist and shipping expert, to proceed immediately to the United States to discuss Britain's maritime problems with administration officials in Washington, it was announced today.

British quarters stressed that the most urgently needed aid that Britain requires from the United States under the lend-lease program is replacement of shipping losses.

Sir Arthur went to Buckingham Palace today and was sworn in for his new task.

Also it was announced, Privy Counsellor Robert Brand will leave for the United States to head a small British mission charged with rushing food supplies to this country.

Italian Airdrome At Valona Is Also Reported As Under Attack

### MUSSOLINI SEES ATTACK CRUMBLE

(International News Service)  
ATHENS, March 14.—R. A. F. fighters shot down 14 Italian planes yesterday in fierce combats over the Albanian battle front, a British communiqué announced today.

The statement said the air battles occurred over the Tepeleni and Klisura areas.

In addition, R. A. F. bombers successfully attacked the Italian airdrome at Valona on the Albanian coast, the British headquarters claimed.

In addition to the 14 Italian planes shot down, others were severely damaged while all British planes returned safely to their bases.

#### Heavy Losses On Troops

More heavy losses were inflicted on Italian troops as the Fascist Albanian offensive crumbled under the eyes of Premier Mussolini, Greek authorities declared today.

They said 11 Duce, who has been directing Italian operations at the front, has been forced to watch while large units of Italian troops have been taken prisoner by advancing Greek detachments.

Athens officials reiterated that the entire Fascist offensive has bogged down under Hellenic counter-thrusts.

The Greek high command announced in a communiqué:

"The enemy continued his offensive on a wide front. Large infantry forces supported by strong artillery units and many aircraft were used. But all the attacks were repulsed with heavy losses to the Italians."

## PLAN AMERICA'S EARLY ACTION TO GIVE BRITAIN AID

(Continued From Page One)  
Secretary of the Navy Knox and Secretary of War Stimson, members said, gave only limited details. Stimson furnished the most complete testimony but it was to be stricken from the records.

Secrets Imposed  
"It would be criminal to give information to the enemies of those we plan to aid," said Rep. Woodrum (D-Va.), in imposing a ban of secrecy upon the detailed program of British aid.

Despite indicated dispatch of naval ships to Britain, one high official declared that the American navy will not be stripped so long as Japan remains a threat in the Pacific.

The formal statements made to the house body by the cabinet officers will be made public Tuesday. Members said that there were no secrets involved.

Hull, it was said, appealed for speedy action to stiffen the morale of England, Greece, Yugoslavia, Turkey and other nations. Senate foes of the lease-lend program planned to seek a reduction in the \$7,000,000,000 figure. But Minority Leader McNary predicted that it will be passed early.

"There probably will not be more than one day's debate on it," he said.

Demands War Profit Tax  
Sen. Nye (R-N.D.) demanded that a 94 per cent war profits income tax be voted.

"There are those in the senate who will try to cut down the \$7,000,000,000 total if they can," Nye said. "On the other hand there are those who feel that since the lease-lend bill was passed, funds should be provided even if the amount is excessive."

"We are creating ourselves an industrial burden to produce materials that might not be used for two or three years. I think we should have a more searching investigation of what is meant by the British aid program while the appropriation bill is before us."

Nye said that a war profits tax bill is "a necessary part of the lease-lend program. Based upon his investigation of the munitions industry, he will draft legislation for a stepped-up personal tax reaching as high as 94 per cent of income."

The \$7,000,000,000 request, cabinet officers told the house body is not a "mere guess" but is based upon a detailed statement of British needs furnished by the British war office and admiralty.

aircraft batteries and night fighters shot down five British bombers and severely damaged "many" other British planes during the R. A. F. attack on Hamburg, an official announcement said.

Several civilians were killed and injured at Hamburg, where incendiary and explosive bombs hit "non-military objectives and residential areas," the communiqué said.

Editor's Note: A British air ministry communiqué said R. A. F. bombers carried out a "successful" attack on Hamburg during the night.

Last night's German attacks on Britain appeared to have been carried out on the most widespread scale on the entire war.

## Cross-Examine Robert Headley On Witness Stand

Gas Field Worker Continues To Deny Plot To Kill His Wife, As Related By Two Women

(Continued From Page One)

WAYNESBURG, Pa., March 14.—District Attorney A. M. Nichols resumed cross-examination of Robert B. Headley today in an effort to shake the 49-year-old Pine Bank gas field worker's denial of previous testimony that he plotted the death of his wife in a "fake holdup."

Headley, on the stand in his own defense yesterday afternoon, admitted an intimate relationship with Mrs. Otis Cumberledge, his reputed sweetheart, over a long period of time, but insisted that he had never suggested doing away with his wife, or that he once attempted to poison her himself.

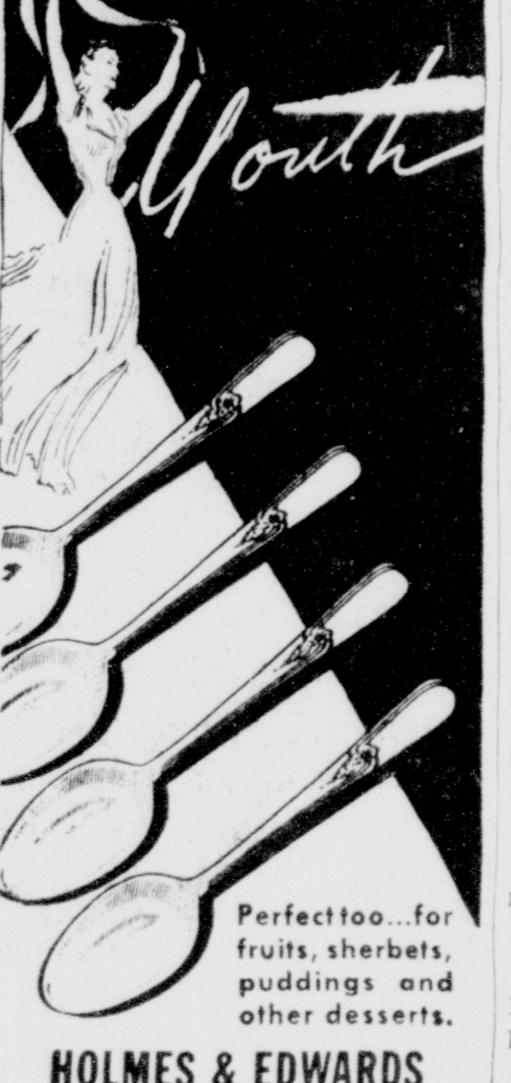

Mrs. Cumberledge, 36-year-old widow, previously testified that Headley engineered a "fake holdup" last August, in which his wife was to have been slain, so that he could marry her. The widow's sister, Mrs. Elizabeth Pettit, 25, said she wounded Mrs. Headley seriously as they masqueraded as hold-up men. Mrs. Headley recovered but took her own life later, authorities claimed.

Headley also stated that any mention of love he might have made to Mrs. Cumberledge "was a joke as far as I was concerned." He denied ever telling her he loved her, or asked her to marry him, but under cross-examination he admitted that letters and postcards containing endearing words were in his handwriting.

The Pine Bank man said he had no part in the plot to kill his wife and did not know who shot her, declaring that he saw someone by a culvert in addition to the two "bandits."

(Continued From Page One)

raid alarm of the war. It began shortly after dusk and lasted until almost 3:30 a.m.

Hundreds Of Flares  
In the Glasgow region the German raiders—despite a clear moon in sky—dropped hundreds of flares, including the new "Molotov" incendiary bombs, which cast a bright glow even when hit by sharpshooters.

These were followed by hundreds of incendiary bombs, but fire fighters promptly dealt with the majority of the resulting conflagrations.

During the attack the sky over Glasgow and surrounding areas frequently was illuminated by the flash of thousands of tracer bullets, indicating British fighters were in action. At least two German raiders were destroyed in the Glasgow area.

Finally large numbers of high explosives were dumped on the Glasgow area, wrecking a hospital, schools, homes and churches. It was feared casualties would prove heavy. Late this morning rescue squads were still digging through debris, searching for further victims.

## Heavy Casualties

LONDON, March 14.—Glasgow on the River Clyde, main production center for the battleships of Britain's navy, counted heavy casualties today in the wake of a terrific German air raid.

At the same time, the air ministry reported outstanding success in a new Royal Air Force attack on Hamburg, Germany's greatest seaport, and claimed a "bag" of at least 20 Nazi aircraft by means of new and secret devices in night operations over England.

The attack on Glasgow and other areas in Scotland, coincident with new raids on the Mersey-side in England, was one of the heaviest the Germans have launched since the high point of blitz operations last fall.

But the British attack on Hamburg also was termed the most devastating yet made by the R. A. F. It is now a case of blow for blow and bomb for bomb.

## Deaths of the Day

### Harry James Nicholson.

After a lingering illness, Harry James Nicholson, aged 63, of 717 Whipple street, passed away this morning at 6:30 o'clock at his home.

Mr. Nicholson was born August 14, 1877, in Franklin, Venango county, son of William James Nicholson and Sarah Johnson Nicholson. He had been employed as a Pennsylvania railroad conductor until his retirement ten years ago due to illness. Mr. Nicholson was a member of the Pennsylvania Railroad Veterans' Association, the Macabees Brotherhood Association and the Holy Name Society of St. Mary's church.

Surviving are his wife, Catherine Valley Nicholson; two daughters, Mrs. Joseph Heaney, Mrs. Daniel Edgington; one son, Glenn Nicholson, all of New Castle; one sister, Mrs. George Green of East Liverpool, O., and a number of nieces and nephews.

Funeral mass will be celebrated Monday morning at 10 o'clock from St. Mary's church. Interment will be in St. Mary's cemetery.

The body has been removed to the Zehner funeral home, North Beaver street, and will be taken to the home of a daughter, Mrs. Joseph Heaney, 419 1/2 Bartram avenue, this evening at 8 o'clock.

### Harvey H. Humphrey.

Coming as a shock to his many friends is news of the death of Harvey H. Humphrey, aged 84, who passed away this morning at 1:30 o'clock at his home in North Liberty community, Grove City, R. D. 2. Death was caused by infirmities of age.

On March 4 of this year, Mr. Humphrey and his wife, Anna M. Buxton Humphrey, celebrated their 61st wedding anniversary.

Mr. Humphrey, born in Lawrence county on June 8, 1856, son of Henry and Sarah Pearson Humphrey, was the last surviving member of a family of nine children. He had resided for the past 60 years in North Liberty and formerly resided in New Castle. Mr. Humphrey, a member of North Liberty Presbyterian church, was a retired farmer.

Surviving are his wife, the following children, Mrs. Blanche Hadley, at home, Paul of New Castle, R. B. of Grove City; eight grandchildren and two great-grandchildren. He was preceded in death by one son, Arson in 1907, and a daughter, Nellie B. in 1912.

The body has been removed to the Cunningham funeral home in Grove City and will be taken to the residence this evening. Funeral services will be held Monday afternoon at 2 o'clock from the late residence with Rev. Wilson Spencer in charge. Interment will be in North Liberty cemetery.

### Carol Ann Bell.

## East Side Woman Is Found Dead

Ill-Health Believed Cause Of Rash Act By Ray Street Woman

Mrs. Jennie Martsoff Carr, aged 62 years, wife of Samuel N. Carr of 618 South Ray street, was found hanging from a cherry tree in the back yard of the Carr home about 5 o'clock this morning by her husband, Coroner T. F. Nugent, who was summoned by city police.

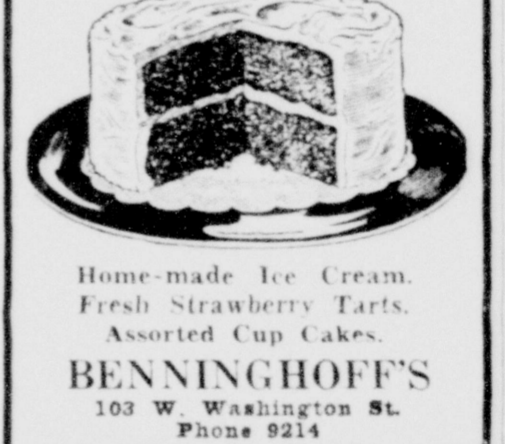

Mrs. Carr had ended her own life following a long period of illness. Mr. Carr stated that his wife had gotten up around 2 o'clock and he thought that she was just restless and couldn't sleep. Awakening again about 5 o'clock and missing her, he found she was not about the house so he went to the home of a neighbor to see if she had been there. He then returned to the home and discovered her lifeless body hanging from a cherry tree in the back yard.

Mrs. Carr was born February 4, 1879, in Renfrew, Butler county, daughter of Fred and Minnie Wagner Martsoff. She was a member of the Second United Presbyterian church.

Surviving in addition to her husband, are her mother, Mrs. Minnie Martsoff of Renfrew, one brother, Clarence Martsoff of Renfrew, and two sisters, Mrs. Molly Kaufman of Donora and Mrs. Alice Wright of Butler.

The body has been removed to the Cunningham funeral home, East Washington and Chestnut streets, where funeral services will be conducted at 2 o'clock with Rev. J.

## BRITISH BOMBERS POUND HAMBURG

(Continued From Page One)

British planes reinforced by American-built craft, dropped bombs of the heaviest calibre on ship-building establishments and dockyards at Hamburg, Germany's greatest port.

Warehouses and similar targets also were blasted. Informed circles said damage to these objectives, which were hit again after being bombed severely only 24 hours before, "must be considerable."

## WOMEN'S SOCIETY HAS INTERESTING MEETING

Announcement of a meeting of the District Institute of Methodists of Erie Conference to be held in the First Methodist church of Sharon on Thursday, April 24, was made when members of the Women's Society of Christian Service met in Grace chapel, Epworth Methodist church, Thursday afternoon.

Speaker at the institute, which will be an all-day affair, will be Miss Helen Johnson, national director of youth. A youth rally will be held in the evening.

Mrs. Wayne Stutzinger opened yesterday's meeting with devotions, after which a most interesting program on health in home and foreign missions was presented. Mrs. C. C. Hart had charge of the program, assisted by Mrs. E. L. Young and Mrs. David McCreary.

Next regular meeting of the society will be Thursday evening, April 3, in the community room of Epworth church, with Group Three as hostesses. All members of the congregation, including men, women, boys and girls, are invited to attend this gathering.

## SHENANGO SOCIETY ASSEMBLES THURSDAY

Members of the Shenango Missionary Society gathered in the home of Mrs. Phoebe Reynolds, on the Wilmington road, Thursday for a covered dish dinner at one o'clock, with Mrs. Gertrude Nesbit acting the hostess in service.

The devotional period was conducted by Mr. Robert Nesbit and Mrs. Florence Nesbit, and the mission study talk on "China" was given by Mrs. Elizabeth Nesbit.

On April 10, Mrs. Florence Nesbit will entertain the group in her home on the Wilmington road.

## HAWAIIAN DINNER FOR RAINBOW GIRLS

Plans are virtually complete for the "Hawaiian Night" supper and program planned by New Castle Assembly No. 1, Order of the Rainbow for Girls, which will take place Wednesday evening, March 19, at 6 o'clock in the west dining room of the Cathedral, preceding the regular meeting of the assembly.

Assisting Miss Juanita Lewis, worthy advisor, are Betty Cope, Judith McGill and Marjorie Allen, who have charge of the reservations. Mrs. L. A. Wygant is chairman from the advisor board, assisted by members of the program committee. This meeting is being dedicated to the Honolulu Assembly, which is sending greetings to the New Castle Assembly, and promises to be a unique meeting, one which will highlight the March activities of the order. A program of entertainment, appropriate to the occasion will be given.

## J. F. F. CLUB PARTY HONORS MRS. HOYLAND

Mrs. Harold McCartney, of North Ashland avenue, entertained at a lovely party Thursday evening, which marked the regular social event for the J. F. F. club, and also took the nature of a farewell, honoring the hostesses' sister-in-law, Mrs. Wilford Hoyland, who will leave in a few days with her family, to take up residence in Richmond, Virginia.

Bridge held sway, with Mrs. Bradley McGonigle and Mrs. Edward F. Hite capturing the honor score trophies, while the traveling award fell to Mrs. Joseph Todd. Mrs. Hoyland, received a lovely farewell remembrance from the hostess, and also, she drew the guest prize. She, with Mrs. Ted Kerr, Miss Frances Gibson and Mrs. Bruce Franklin, were special participants on this occasion.

A St. Patrick's lunch was served as the concluding feature. Mrs. Cecil Myers of near Ellwood, will entertain the club on Thursday, March 27, at the home of her sister, Mrs. William Jones of Highland avenue, this city.

## OVERSEAS DEFENSE

PRESIDENT ROOSEVELT has been armed with powers that none of his predecessors possessed in time of peace, or, at all events, never possessed when the United States was not a belligerent. The United States is not a belligerent, but neither is it a real neutral. The United States is not at war, but neither is it at peace.

Congress, in enacting the lease-lend bill, has not declared war, but it has declared the United States to be a participating partner in the defense of countries "whose defense," in the language of the lease-lend bill, "the President deems vital to the defense of the United States." In the President's words, the United States is in truth to become "the arsenal of the democracies."

Under what few shreds are left of international law, the United States remains a technical non-belligerent, but it nevertheless emerges in a new role upon the world stage. What that role is to be, how it is to develop under the pressure of events, no American knows. Spring, an ominous season, approaches. What a difference between that spring of 1940 and this spring of 1941!

Then, as Hitler swept across the Low Countries, conquering them and France, as Britain's encircled troops waited on Dunkerque beach, the United States was a shocked spectator. Now, as Hitler occupies Bulgaria, bullies Yugoslavia and threatens Greece; as Japan's foreign minister speeds to Berlin, the United States is no longer a mere watcher of the skies, but a determined partner in Britain's defense, perhaps a future partner of Greece, of China, of The Netherlands East Indies, of still others.

The defense of Britain, and of such other countries as the President elects to help, thus becomes part of American defense. That is the basis, and the sole basis, upon which this historic legislation rests.

It required just under two months to put this bill through its various legislative stages. Full hearings were held, full debate afforded. There were some extremities of opinion, some demagogic utterances. Debate in general was on no ignoble plane. None can charge that this legislation was jammed through.

## FIVE YEARS AGO

The war began five years ago. On a day in March, 1936, Hitler proclaimed that the Versailles and Locarno treaties fixing the demilitarized Rhineland zone had been wiped out by France's new pact with Red Russia. As he spoke, he sent a small force into the demilitarized zone.

In that gesture, he broke the German treaty obligation. The French could have destroyed the German force in a day. But the French hesitated. They complained to the League of Nations. While they waited, Hitler sent in 30,000 members of his police battalions. France did nothing.

The French were leading up to the April election. The Communists and Radical Democrats were exhorting the people to strike for the short day, equal division of the fruits of labor, higher pay and more privileges. The French government hesitated to act during the campaign. The election was won by Communists and Socialists—the Popular Front.

The outcome of the election emboldened Hitler. He kept his army in the Rhineland. He knew then that he was dealing with the shadow and husk of the France that stood up to Germany in the World War. It was on that knowledge that he fed the bloodthirstiness of the German people.

It has been claimed that Hitler overcame the objections of his cabinet to the Rhineland gesture by declaring that if France showed fight he would take his own life. He proved to be right, and the prestige that he gained for boldness and sureness of judgment fixed his leadership and provided the spark that the German people needed to set off another bid for world domination.

The French weep as they look back to March, 1936. But they would weep more bitterly if they looked farther back—to that day that they gave France into the hands of the weaklings among their own people, the dreamers who argued that the French people could survive half on the job and half on the government.

## SIGNS OF WORRY IN THE AXIS

The departure of Mr. Matsuoka, Japan's foreign minister, for a series of huddles in Moscow, Berlin and Rome, can not readily be dissociated from American foreign policy, the passage of the lease-lend bill for aid to Britain and our gigantic preparedness program.

Despite the "Bananas" ringing in the foreign minister's ears as he left familiar Tokyo scene for the stern Communist and Axis capitals, there are plain indications that he did not go of his own volition. Nor can it be surmised that he went happily.

The truth seems to be that he was summoned to Berlin to explain to Hitler what Japan could do to keep America's attention concentrated on the Pacific when the Axis opened its spring drive in earnest. But Matsuoka is not in a position to make promises to Hitler unless he has assurances that Soviet Russia will not interfere, at least for the present, with Japan's expansionist aspirations.

It is more than probable that the branches of the Axis are experiencing various degrees of bafflement concerning America's aid to Britain and other rearmament plans.

The Japanese seem to have been somewhat non-plussed by passage of the lease-lend measure. They are suddenly awakening to its implications. An interview in a Tokyo newspaper the other day reminded that this country has enormous resources and vast productive capabilities.

If Hitler attempts to line up Japan for definite action in the Pacific in the coming months, Matsuoka could do worse than give him a frank estimate of America's defense possibilities as seen through Japanese eyes. If there is anything that hurts an aggressor's morale it is the realization that a tower of strength is being built against his advances.

## The Parent Problem

By Garry C. Myers, Ph.D.

## READING AIDS PARENTS, TOO

Often in this column I have urged parents to read to the baby and young child. Usually I had in mind the best education of the child. Yet the mother who reads to the little child is educating herself also; she is improving her ease and forcefulness of speech, rendering reading to the child doubly effective for his language development.

"My dear Dr. Myers—I read your daily column in the paper and find it a great help in rearing my little girl, who will soon be four years old."

"I want my daughter to know the charm of beautiful English well-spoken and I know that she must get this from the home. However, neither my husband nor I are well educated. After completing the eighth grade, my husband had to work on the home farm while I had only three years of high school."

"I read good books and find that these help me a lot, but I believe there must be a correspondence course that would help us considerably. I would like to receive your selected list of books and pamphlets on understanding and guiding the young child; also the list of books to read to the young child. A self-addressed stamped envelope is enclosed."

## The Answer

I am glad to enclose the lists of books you requested. You and your husband are better educated than you think. I certainly do admire your zeal for self-improvement.

It might be well for you to take a correspondence course in some special field of information. But for the purpose you state, I should not recommend any course. You say you have been reading good books. Go on doing so. Read aloud books to each other and your husband, from some of the masterpieces which you find on high school reading lists. There is nothing better than the Bible to read from aloud to improve your forcefulness and beauty of speech. Also include some of the works of the great poets.

If you will read daily to that little daughter from the enclosed list, and keep on reading to her from harder books after she enters school, you will have done about the best thing I can think of to cultivate good speech. Mothers who read to their children, especially from the folk tales of the ages, do more for their own education than they realize.

Please remember that beautiful and well-spoken English does not necessarily mean long words. Rather, the most beautiful English abounds in the words which are found in the Bible, Robinson Crusoe, Pilgrim's Progress, Treasure Island and speeches of Abraham Lincoln, who by the way, learned his forceful English by reading aloud.

**Solving Parent Problems**  
Q. Suppose the clerk at the corner drug store called you up and said your child stole something from his store.

A. I would calmly tell my child what the clerk told me. If the child insisted he had not taken the object, I would accept his word but answer, "Since the man at the drug store says you did I must go and pay him for the thing he thinks you took. You will go with me to see me pay him. From now on until we change the rule, you must never go into that store unless you are with some responsible adult. I shall tell the drug store so. If you go there without this guidance you will be punished." And I would tell him exactly what the punishment would be and be sure that he could count on my word.

## The World and the Mud Puddles

## A LARGE ORDER.

As chairman of the all-powerful Federal Communications Commission, Senator Wheeler will hold a one-man inquiry into broadcasts by radio newscasters and commentators whom he believes guilty of "propagandizing for war."

This is by any standards, a large order. War comes when the mental climate is favorable to it—that is, when people begin thinking in terms of war. America is today living in such a mental climate and not because of any propaganda for war. That climate has been produced by innumerable events outside ourselves and by the feelings these events have aroused inside ourselves—the unbelievably swift collapse of France, the wars now going on in Europe and Asia, our armament preparations, the selective service act, fear of German ambition, uneasiness over Britain's possible defeat.

None of this means that war is inevitable. But it does not mean that censorship of comment and debate will not banish thoughts of war nor ensure peace, as Senator Wheeler's proposal would seem to indicate. The Montana senator falls into the error of assuming that what he believes is the "truth," and what opponents espouse is "wicked propaganda," with equal justice, the labels might be reversed—or, better yet, dispensed with.

There is no supreme tribunal to which, at this instant, the nation can appeal to in order to decide which course of action will prove wisest in the long run for the country. We cannot rightly say that a foe or supporter of any particular issue of foreign policy is either a villain or a savior. The best we can do, and should do, is to see that all persons and parties with the welfare of this nation at heart receive a fair hearing. A full and unencumbered exchange of views is the surest guarantee that the wisest, safest policy will prevail. This is the traditional way, the American way, the way that has preserved, and will preserve, our form of government.

Life Insurance Firms Overly Cautious  
SEC Complains Companies Too Careful  
Speculation Is Urged In Recent Report

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, March 14.—Congressional reaction to a securities and exchange commission's complaint that life insurance companies are overly careful with their investments hasn't been at all preponderantly favorable to the commission's suggestion.

Criticism of the companies was contained in a report by Gerhard A. Gesell, special counsel for the SEC, and Ernest J. Howe, chief financial adviser to its insurance section, following a study of the life underwriters' investment policies. The SEC didn't give it out directly, but turned it over to Chairman O'Mahoney, who published it. In doing so he said he didn't necessarily endorse the Gesell-Howe pair's opinions. For that matter, Chairman Frank of the SEC said that he didn't either.

The nub of the report was that the insurance concerns scoop in an enormous amount of money in premiums and are so cautious in investing it that virtually it's bottled up, so far as ordinary business is concerned, thus minimizing the commercial and industrial activity. Furthermore, it's pointed out, the super-gilt-edged class of securities, which the insurance managements confine their investments to, pay very low interest rates; their incomes would be larger if they weren't so particular.

It would be better for all concerned, Counsel Gesell and Adviser Howe argue, if the companies would buy common stocks in reasonably safe corporations, instead of confining themselves to bonds and mortgages under which they can foreclose if they have to, absolutely guaranteeing themselves against any loss whatever.

**Guarantees Desirable**

Most of the legislators on Capitol Hill, with whom I've talked, take the position that absolute guarantees are just what life insurance companies ought to require. If any business on earth should be loss-proof, covered lines, law-makers, it's the life insurance business.

"Why, if big returns are the main consideration," one senator remarked to me, "big returns are possible from crap-shooting."

If a man acquires something substantial for \$1 he spends," said another, "that's an investment. But if he bets it on a horse race, it's a speculation. I don't think life insurance companies ought to be speculators."

The fact is," commented a third, that we seem to have gone nutty on the subject of the desirability of circulating money. Our whole system of taxation in particular aims at the penalization of the chap who (Continued on Page Five)

## It's Our War Now

Washington, March 14.

JUST to measure the distance we have come since the war began seventeen months ago—it may be recalled that in September, 1939, the President, as required by law, proclaimed an embargo on the shipment of arms and ammunition to any belligerent nation.

IN the following November this embargo was repealed but the Neutrality Act was otherwise strengthened by a prohibition against foreign loans and a section which made it a crime to sell to Great Britain except for cash the goods to be carried in her own bottoms. At that time a strict neutrality was the overwhelmingly approved national policy. So anxious were we to take no sides that we actually ditched the historic freedom-of-the-seas doctrine for which we had steadfastly stood for generations and imposed restrictions which limited our traveling privileges and curtailed our commerce.

CONTRAST that with our present position. On the night following its passage the lease-lend bill was referred to by an American radio commentator in England as an "official declaration of war against Hitler." Few realistic persons will dispute the accuracy of that description. The remnants of the old Neutrality Act have now been thrown out the window. We have become the open and avowed ally of the British, officially committed to aid them, regardless of cost, in the defeat of their enemy, who thus becomes our enemy too.

IF that does not amount to a declaration of war, then the law that passed and the things we are preparing to do under it have no meaning at all. Of course it is a declaration of war. Moreover, it is a declaration in which is overwhelming support in accord with the sentiment of the American people and now the fight is over, it will be supported by them with remarkable unity. This was attested by the statement of Senator Vandenberg, one of the opponents of the bill, who pointed out that the Senate as a whole was for full aid to the British; that the Germans would be forced to regard this as a divided country; that the division was only as to method. It was further attested by the ringing call for unity by Republican House Leader Martin, who also had opposed the bill.

AS things are today, the United States is the real Hitler menace. It is true the British bear the brunt of the battle, but they concede they could not hold out without our aid and that only with us as an ally can Hitler be smashed. This, of course, is as clear to Hitler as it is to the British and to those who face the facts here. It means that, without counting the cost we must now exert our full weight to winning the war. As the President says, that comes first. In this attitude, for us to leave anything undone that can be done toward bringing about that result would be completely and criminally unintelligent. It would more than amount to nullify our own policy—it would create a great national peril.

**Mellon's Advice**  
Common stocks? Just before the end of the last boom the late Andy Mellon, then treasury secretary, was quoted in the press as advising folk to buy bonds. "Why bonds?" newspapermen asked him. "Oh," he answered carelessly, "there's a tremendous demand for stocks now, which makes 'em expensive. Bonds are rather low, correspondingly, they don't yield the immediate returns that stocks, with their rising prices do. But good bonds are a pretty safe investment."

Then the boom popped. Panic was rampant. At that juncture I met a friend of mine, a muddling rich man. Knowing him very well, I asked him, "How does this situation effect, not a mere speculator, but a substantial capitalist like you?"

"I thank you," he replied, "for the compliment. But do you recall Andy Mellon's advice to buy bonds? Well, I reckoned that he meant, rather, that it was a good time to sell stocks. So I unloaded most of mine at top quotations. Consequently I've made money out of the depression."

war materials will be manufactured here and sent over there in vast and ever-increasing volume. It is true we are now going about this in the most bungling, inept and costly way. It is true that we are afflicted with strikes, incompetent administration and inner administration intrigue. It is true that much more could be produced at greater speed and less cost. Nevertheless, through the sheer magnitude of the billions we have to spend and the contracts that have been let, the production has begun. Month by month it will increase. It can be retarded and it will be accompanied by immense waste—but it cannot be stopped.

REFLECTING upon our stake in the war and the immensity of our effort to win it, the foolishness of shrinking from any step to insure safe delivery of these vital products is apparent. To spend the energy and money to make this material, to upset the whole life of the nation in order to produce it, and then to stand by and tell the English that we can't do anything to prevent the German submarines from sending it to the bottom of the ocean would be absurd and indefensible. That attitude just cannot be sustained. Anyone who thinks we are going to do that is mistaken.

Members of the Junior Business Girls and their friends enjoyed an interesting talk given by Jack Boyles of the Shenango Pottery company on Thursday evening, when they gathered at the Shenango Pottery China shop, Grant street.

Mr. Boyles chose as his subject, "How Pottery Is Made." Thelma Whiting was in charge of the meeting.

On Thursday, March 20, a recreation period will be held, with Peggy Pattison in charge.

MANUSCRIPTS ARE NOVELS TODAY

There was a time when film manuscripts were as short as women's dresses are today, but today they are as long as the manuscripts of full-length stage plays, or as long as most modern novels.

Harold Lloyd who it is said, earned \$2,000,000 with "Grandma's Boy" some years back, wrote the manuscript on the backs of two envelopes, and "The Freshman" grossed \$3,000,000 and the script was written on a page and one-half.

# French Factories Making War Supplies For Germany

## Report Reaches U. S. Authorities

Unoccupied Regions Of France Reported Aiding Nazi War Efforts

## AFFECTS BRITAIN'S STAND ON BLOCKADE

By KINGSBURY SMITH  
International News Service Staff Correspondent

WASHINGTON, March 14.—The American government has received information that factories in the unoccupied regions of France are making war supplies for Germany, it was learned today.

Among the factories engaged in such work are the silk mills at Lyons, which are known to be making parachutes for the German air force.

This information is making the American government reluctant to press Great Britain to relax the food blockade against France. Authoritative quarters feel Britain can hardly be expected to agree to help feed French manpower which is being used to assist the German cause.

Whether the British will relax the blockade in view of Admiral Jean Darlan's threat to use the French navy to convoy food ships unless such action is taken "within a few weeks" is not definitely known in Washington. However, informed quarters are inclined to doubt that the British will be moved to lift the blockade to any extent.

### Permit Red Cross Supplies

The British government is willing to permit the American Red Cross to send food and medical supplies to unoccupied France for distribution to civilians, but it flatly refuses to permit any regular food shipments for adults.

Britain's position originally was based on the grounds that Germany confiscated France's food reserves and it was not going to facilitate replacement of such reserves while the British people were in dire need of supplies. Now that French factories in the unoccupied zone are turning out war supplies for Germany, it is expected the British will be opposed more than ever to any relaxation of the blockade insofar as adults are concerned.

This government may seek to persuade Britain to permit an increase in the American Red Cross shipments for French children, but there will be little disposition in Washington to press the British to do more as long as French factories continue to turn out supplies for Germany. Furthermore, American quarters believe the Vichy government is exaggerating to some extent the seriousness of the food situation in unoccupied France. Private reports received by this government do not indicate the French people are as near the brink of actual starvation as the Vichy spokesmen claim.

Abyssinian natives greatly prize empty soup cans and catsup bottles. They will give as much as a dozen eggs and a chicken for such an empty can or bottle.

## Legislature Will Study Budget Soon

Expect \$312,000,000 Budget To Begin Moving In House By Mid-April

By RAYMOND WILCOVE  
International News Service Staff Correspondent

HARRISBURG, March 14.—The James administration's \$312,000,000 biennial budget, including the \$184,000,000 emergency tax program, should begin moving through the house for enactment "around mid-April," House Majority Leader Leo A. Achtermann today forecast.

Achtermann said that he anticipated completion by the end of this month of the questioning of James cabinet officials. The house appropriations committee this week heard Secretary of Health John J. Shaw, Internal Affairs William S. Livengood, Jr., Agriculture John H. Light, and Major General Edward Martin, 28th division commander, and Acting Adjutant General Robert M. Vail.

Most of the hospitals have answered the questionnaires sent them by the house committee, added Achtermann, and the data is now being compiled. The committee will next take up the appropriations for state-aided homes and will then be ready to report out the administration's fiscal measures.

Action on the governor's financial program has been held up pending a study of the biennial budget requests by the house majority.

# Dangers Of Expanding Debts Are Discussed By Roger W. Babson

By ROGER W. BABSON

Copyright—1941—Publishers Financial Bureau, Inc.

BABSON PARK, Fla., March 14— I was brought up in a frugal household in which debt was considered a sin. My father always did the family marketing, going personally

BABSON

to corner grocery and paying cash. As a young man, I can remember but few bills, except for water, gas, or taxes, coming into the house. Even these my father paid in cash, taking back a formal receipt. My father maintained a credit-able bank balance, but drew his checks sparingly. He was a generous man, but he had a healthy respect for the value of a dollar. As a result of his influence and example, I have never borrowed a dollar in my life either for business or for personal reasons.

## The Effect Of Debt

I know from a lifetime of observation that the borrowing of money, either by an individual or by a corporation, can result in terrible consequences. This is likewise true from a national point of view. Note the effect upon individuals of other countries when inflation followed upon the heels of a broken-down debt structure. Indebtedness of any kind, whether of a social or a financial nature, is best to be avoided. Certainly, in its wake can come discontent, distress, poverty and unemployment.

Today, much of our national prosperity, as reflected by larger pay rolls, higher wages, increased retail trade and a generally larger volume of business, is based upon our expanding debts. Some of our needs are legitimate, real and economically sound; but others are false and should be abandoned. But note the word "expanding." It is not the debt which gives us good business, but the continued increasing of the debt. Herein lies the danger of borrowing. Read Romans 13th chapter, eighth verse, and see what the Bible has to say on this subject.

## Where Do We Stand?

Newspaper readers know that the limit of the national debt has been recently raised from 49 to 65 billion dollars. The latest figures available for the actual size of the national debt put it at \$45,876,972,769 as of January 31. The per capita share of this debt amounts to \$346.48 for every man, woman and child in the country, or about \$1,500 per family. It may be of some interest to note that on August 31, 1919, when World War I was at its peak, the national debt amounted to only \$26,596,701,648, the per capita share being \$230.18.

Private debt now also far exceeds the existing and contemplated national debt. The long-term private debt amounts to about 75 billions and includes 42 billions of mortgages, 12 billions of railroad debts, 13 billions of public utility debts and eight billions of industrial corporate debt. The additional short-term private debt is represented by 24 billions of bank loans, 10 billions of retail credit extensions, and three billions of loans on life insurance policies. Altogether, we have a private debt of 112 billions. Our combined municipal and state public debt is 20 billions. Adding our national, private and public debts, we get a grand total of 177 billions, or about \$6,000 per family.

The Federal government will shortly announce a new loan. More and larger ones will follow. I am continually being asked if these new bonds will be paid. My answer is "yes" because the Federal government can print paper money to pay them off. This is something that states, municipalities, corporations and individuals cannot do. But how much this paper money will be worth is another matter. If the war lasts very long, it will not be worth much.

A constant increase in national, city or municipal debt is just as bad as an increase in personal debt. This especially applies to war debt. If Germany loses the war she will repudiate her debt and forget it; while if she wins, she will make us pay it. Great Britain will follow a similar program. But you say that Uncle Sam will not let Britain lose. Very well, I agree; but still the war could end in a stalemate with a

compromise peace. This is very likely. Then what will become of war debts? The majority of people know the danger of private debts, but the public debt is of little concern to the average individual. I am very sorry for this.

## Are We Willing To Sacrifice?

In plain English, our national debt should rightly be measured against our willingness to produce and save real assets. This, in turn, is contingent upon our moral eagerness to work longer and harder in raising our national income to a point where its tax load will carry and ever reduce the debt. Real assets, however, do not include war supplies! The safety valve of our national debt is controlled by our willingness to make sacrifices, by working harder and longer to reduce private, corporate and municipal debts. We must recognize individual responsibilities or be content

with our lot in the deluge which may eventually result.

Private, corporate and public debts should be kept to a minimum when our national debt is increasing. Our war "prosperity" should enable many to get out of debt for the

first time in years. By all means pay cash during the remainder of the war. Do not get messed up with instalments. However, the main thought I want to drive home is that it is a choice between harder

work, longer hours and lower wages during the defense effort—or else repudiation in some form.

Synonym is a word you use when you don't know how to spell the one you want to use.

The origin of the British "Knight of the Bath" dates back to the time when the ceremony of bathing was practiced as a symbol of purity for a knight who was being inaugurated.

# Eight Balls of Fire

If you like fireworks, and who doesn't, it's really too bad you can't see what goes on inside that sparkling big Buick FIREBALL eight that romps you so easily down the broad highway.

There you'd see eight busy cylinders, with pistons flashing up and down...

You'd see each fuel charge packed tight into a tiny bundle shaped like a flattened ball...

You'd see the spark leap, the flame spread, the piston thrust down with extra force as each furious fireball lets go its pent-up wallop.

You'd see all this happening as fast as thirty times a second in each of those eight cylinders—and we think you'd understand then just why there's such a special and exciting satisfaction in the way a Buick travels.

Gasoline gives up more of its power when it's packed as tightly as it is here.

**and how they can travel!**

That special, flattened-ball shape of the compressed fuel charge means smoother, better burning, full focus of the power on the piston head, where it counts.

So when you've got these eight balls of fire working busily under

the bonnet, you really travel!

You travel farther on every gallon; you travel more pleasurably.

You travel—but, shucks! Why listen to talk when there's a Buick dealer nearby waiting to show you how your travel behind a FIREBALL?

It's Kroger's Tenderay..

**FRESH & TENDER!**

Freshness is *Precious* in beef! Like all food, beef deteriorates with age.

TENDERAY SPEEDS UP NATURAL TENDERING 14 TIMES, OUTMODES WASTEFUL AGEING, CONSERVES VALUABLE JUICES, REDUCES LOSS OF NATURAL VITAMINS. KROGER'S TENDERAY IS THE WORLD'S ONLY GOVERNMENT PATENTED METHOD OF TENDERING FRESH BEEF. GRADE FOR GRADE, NO OTHER BEEF SO FRESH CAN BE SO TENDER! THIS CLAIM CANNOT BE TRUTHFULLY MADE FOR ANY OTHER BEEF.

**KROGER'S TENDERAY BEEF**

As with other foods, ageing makes beef literally "dry out," causes expensive waste, forfeits rich juices and natural vitamins. Kroger's Tenderay is not only amazingly tender, but it has all the extra values of fresh beef—natural flavor, abundant savory juices, and more of its vitamins.

## Much Depends Upon Meaning Of Word 'Between'

(International News Service)  
LINCOLN, Neb.—On the meaning of the words "between" and "among" as used in a case before the State Supreme Court hangs disposition of a \$12,000 Nebraska trust fund.

When Lewis A. Pfost died he left a will stating that after his widow's death, the \$12,000 trust set up for her be—

—divided equally, in equal shares, share and share alike, between my son, Hugh, and my 12 grandchildren.

Now Dist. Judge H. D. Landis has held that the word "between" if properly used can apply only to two objects.

The son, Hugh, as one object should receive \$6,000 and the group of grandchildren, as another object, should receive \$6,000, he said.

So counsel for the grandchildren have taken the case to the state's highest court. They contend that the grandfather actually meant the fund should be divided into 13 equal shares for Hugh and the 12 grandchildren. The grandfather really meant "among," they assert.

This would give the latter \$923.77 each instead of \$500. But it would cost Hugh \$5,076.23 as anyone can plainly see.

Now the high court must decide not only whether grandpappy knew his Webster but also what he really wanted done.

son, were dinner guests of Mrs. Fred Seltzer of Mahoningtown on Tuesday.

Merlin Feiger was pleasantly surprised recently when a group of relatives gathered in his home on the Mt. Jackson road to honor his birthday anniversary. Social chat furnished the entertainment for the evening after which a delicious lunch was served by Mrs. Feiger assisted by several ladies. Out of town guests were from Salem, Canfield and New Middletown, O.

## News Briefs From City Hall

Mayor Charles B. Mayne was lenient in police court today with a young woman who made the error of over-imbibing early Thursday morning and who spent the night in the city building. He lectured the young woman in police court today then instructed she immediately return to her home.

According to a report made to city police, Homer Stewart, 815 Eddy street, a pedestrian, was not seriously injured when reportedly struck by an auto driven by Harold Smith, R. D. T. yesterday at State and Sankey streets.

Director of Property Joseph D. Alexander today stated that he had for \$165,000, insured all of the parking meters against theft and damage, for one year. The city has had to pay out considerable money for repairs required because of autos striking the meters, or vandalism, it was reported.

## Acquaint Boards With Felonies

(International News Service)  
HARRISBURG, March 14—Copies of a 25-page analysis of Pennsylvania laws relating to felonies today were forwarded to the state's 422 local boards for the guidance of selective service officials.

The report, prepared by Major George H. Hafer, of the judge advocate general's department, pointed out that "ever since 1877 congress has prohibited the enlisting or mustering into military service of any one who has been convicted of a felony."

For the information of appeal agents, the analysis lists statutory references to each felony under the penal code.

## Public Rushes For Ne-Ca Novelty Stock

Financial Backing No Problem  
To Junior Achievement Group

Founders of the newly formed "Ne-Ca Novelty Co." New Castle's first Junior Achievement company, looked optimistically ahead today after hearing one of their officers report last night that \$85 worth of stock in the enterprise has been bought up.

Five young persons—four boys and one girl—formed the concern to

manufacture novelty articles in a room on South street. The space has been reserved but operating equipment has not as yet been installed.

The young business folk who will manage plant operations and handle sales and other problems plan to limit stock sales to \$100. The public is rushing for the stock, which is selling for 25 cents a share.

One version of historical and official records shows that the designer of the Stars and Stripes was Francis Hopkinson, a signer of the Declaration of Independence. He is known to have designed the first Great Seal of the United States in addition to a number of coins. Mr. Hopkinson is also credited with being America's first native composer of music.

## Blitzkrieg Methods Used In Battle On Forest Fires In U. S.

(International News Service)

WASHINGTON, March 14.—Blitzkrieg methods to prevent forest fires were highly successful in 1940, the Department of Agriculture reported recently.

Outstanding in the fire control activities of the Forest Service has been a development of the "smoke-jumpers" or parachute fire-fighters who reach back-country fires while they are still small enough to be put out by one or two men. Other

methods consisted of improved portable radios to maintain better communication on the fire line and in fire discovery, the greater use of special highly trained "40-man crews" as shock troops on going fires that threaten to get away, and new trench-building machines.

The Department of Agriculture further reported that the Forest Service has been supervising thousands of Civilian Conservation Corps workers to construct roads, trails, lookout towers and telephone lines. The CCC youths also do a great deal of fire fighting and mopping up work.

**Drop in Man-Made Fires**  
The Forest Service admitted that besides the increased efficiency of the fire control organization, the fact that man-made fires decreased in number helped the successful fire prevention program.

Man-caused fires dropped from 8,555 in 1939 to 8,131 in 1940.

Although less than half of the fires in national forests are caused by man, the Forest Service declared that on all forest lands of the United States nine-tenths of the fires are man-caused. Either campers, smokers or other recreationists, incendiaries, debris burners, lumbering operations, railroads or similar agencies were responsible.

The department stated that national forest damage in 1940 totaled to a new low of \$684,293 compared to the \$1,827,347 of 1939. Expenditures for fighting forest fires also retreated from the 1939 total of \$3,280,000 to \$2,995,000 in 1940.

The eye is 16 times more sensitive to impression than the ear.

An invitation to dinner had been sent to the newly settled physician. In reply, the hostess received an illegible letter.

"I must know if he accepts or refuses," she declared.

"If I were you," suggested her husband, "I should take it to the druggist. Druggists can always read doctors' letters, however badly they are written."

The druggist looked at the slip of note paper, went into his dispensary and returned a few minutes later with a bottle.

"There you are, Madam," he said. "That will be 75 cents."

**Gas Mask Drills  
For 28th Division  
At Indiantown Gap**

(International News Service)  
 INDIANTOWN GAP, Pa., March 14.—Twenty-Eighth Division troops today complete a week of preliminary gas mask drills as staff officers prepared to expand an intensive 13-week training period.

The new combat masks, unlike the bulky issue of World War days, have a speaking diaphragm which enables their wearers to talk through them.

At the same time, band members of the 107th Field Artillery put aside their instruments to obtain instruction in the mechanism of the famous 75 mm. field piece. In combat, the musicians serve as regimental stretcher-bearers.

Meanwhile, officers of the 53rd Artillery Brigade trudged to the pistol range at the order of Brig.-Gen. Eric Fished Wood, commander, and blasted at targets in an effort to qualify as small arms experts.

General Wood, a crack pistol shot, insisted that his officers qualify as expert marksmen before enlisted men started their qualifying rounds.

An increase in hospital cases was recorded as the total was placed at 760 patients. Warmer weather is expected to reduce the minor ailments that have swamped hospital wards.

## Quarter Million Registered Men Are Classified

State Draft Boards Continue  
Work Of Classifying  
Men Registered

(International News Service)  
HARRISBURG, March 14.—Upwards of 250,000 men have been classified by Pennsylvania's 422 local draft boards, state selective service authorities disclosed today.

Only 15 one-but-drafts of one per cent of the registrants have appealed from their classifications, which Gov. Arthur H. James interpreted as an indication that local boards are doing a thorough job.

Pennsylvania was advised by national headquarters that it was the first state to forward its appeal record to Washington.

The state headquarters in Harrisburg is handling a larger number of registrants—1,235,422—than any other headquarters in the United States. There are 1,709,715 registrants in New York state but the latter has two headquarters to handle registrants.

As of January 31, a total of 208,936 men had been classified by local boards in Pennsylvania. Of these, only 308 have appealed to appeal boards in 11 areas.

Local boards were affirmed in 143 of the 308 appealed cases, it was said, while decisions of local boards were modified in 33 cases and 42 appeals were returned to local boards for additional information.

Three cases of men who claimed deferment because of objection to military training and service have been referred to the U. S. justice department for hearings.

## Miners Will Not Strike Declares President Lewis

(International News Service)  
NEW YORK, March 14.—There will be no strike in the bituminous coal mines of the United States this spring.

To further national defense, International President John L. Lewis of the powerful United Mine Workers of America today pledged that the nation's soft coal mines will continue working even if the current wage conferences with Appalachian operators fail of agreement before March 31, expiration date of the present operators-miners contract.

## Polish National Catholic Church Devotions Tonight

This evening, penitential devotions at the Polish National Catholic church, will commence at 7:30 o'clock, and will continue on Saturday and Sunday evenings.

Sermons during the evening's services will be given by Rev. Fr. Peter Staskowski, of Warren, O., and Rev. Fr. R. Rostroski, of Youngstown, O.

These out-of-town pastors will assist Rev. Fr. L. C. Anisko, pastor of the church, during the devotion services.

## Fifth Ward Girls Have Club Meeting

Members of the Fifth Ward Senior Girls' club met Wednesday evening in their club rooms, Pollock avenue, with the president, Ann Turco, presiding, Jennie Macarella, W. P. A. supervisor, was in charge.

"God Bless America" opened the meeting, and officers were elected: president, Ann Turco, vice-president, Marjorie Colella, secretary, Louise Corio, treasurer, Mary Mastren; program and entertainment committee, Teresa Coppel, chairman. Edith Chipraro and Rose Terren; reporter, Clara Lamorella. Each new officer spoke.

Plans were discussed for an Easter party to be held next month, and will be a combined party of the Senior Girls' club, the Junior Girls' club and the Boys' club of the Fifth Ward Recreation Center.

A recreation period followed with the girls participating in basketball, dodgeball, ping pong and other games. The next meeting will be held on March 26.

In the office of Prothonotary and Clerk of Court John A. Edgar, Marie Minet of Ellwood City asks a divorce from August Minet of Smithfield, O. They were married July 22, 1907 in Youngstown, O., but the plaintiff claims her husband deserted her in September 1907.

Louis Dottle of New Castle asks a divorce from Erma Dottle of New Castle on the grounds of cruel and barbarous treatment and indignities to person. They were married February 3, 1927.

Attorney Clarence A. Patterson is in receipt of a letter from C. Garfunkel, acting divisional director of the Naturalization Department notifying him that May 8, 1941 has been set as "New Citizens Day". Mr. Patterson has had charge of the exercises here each year which have been sponsored by the American Legion.

"New Citizens Day" will be observed here this year but not on the day set. The final examinations for citizenship applicants comes on May 26 and some time must elapse

before the records are completed. It is anticipated that the day will be observed here sometime in June.

Litigation costs money as you probably know if you ever got mixed up in a law suit. Usually it costs the taxpayers but in the case of Mary Janus versus John Janus, it will cost the prosecutrix about \$50 for bringing a suit and then failing to appear for the trial.

The two are married but not living together. On November 26, 1940, Mr. Janus put his allowance through a window, value \$4.50, but replaced the window immediately. His wife then entered a charge of malicious mischief against him and the case was listed for trial on Thursday morning.

The jury was selected and sworn and the case ready to start. District Attorney John G. Lamoree announced to the court that the prosecutrix was not present and that search by County Detective Paul A. Welsh and Court Interpreter Mrs. Jean Piller failed to find her. Because of this he moved

to dismiss the case. The court suggested that the costs be placed upon Mrs. Janus and this also was done.

In the case against Anthony Punari, charged with aggravated assault and battery the jury returned a verdict of not guilty and divided the costs. This was a case where two clerics, Punari and Joseph Panella had engaged in a fight in which Panella's leg was broken.

Soon Be Shipped

The Lawrence County Unit of the  
British War Relief Society at a  
meeting of the Special Campaign  
Committee held last night at the  
headquarters 211 East Washington  
street, reported that the total funds  
for the second mobile kitchen to be  
sent to Britain has now reached  
\$780. This is in addition to the \$1,750  
raised and paid for the mobile  
kitchen to be sent to Newcastle  
England. The order for this unit was  
placed last Saturday and it is ex-  
pected that the unit will soon be  
completed for shipment.

### Tried in Killing

Mrs. Lue Burns

Mrs. Lue Rodemich Burns, above,  
comely East St. Louis, Ill., widow,  
goes on trial for the slaying of  
her fourth husband, John Palmer  
Burns, last Jan. 25. Mrs. Burns  
admitted shooting her husband  
but said the act was in self-de-  
fense. In 1931, a coroner's jury  
held her killing of her third hus-  
band, Shelby Clay, was justifiable  
homicide. She married Burns a  
year later.

## Question Trio In Attempt To Rob Ohio Bank

Three young men of New Castle were questioned at police headquarters late last night but were unable to prove that they were not connected with an attempt to rob the New Waterford, O., Savings bank at noon Thursday. They were taken into custody by Lieutenant Kennedy, Detective Thomas and Police-men Alliger and Fieger on the south side. The similarity between the would-be bandits and one owned by the local trio brought the grilling.

W. E. Ferguson, vice president of the bank, was at the bank window and the other four bank employees were eating lunch in the rear of the bank at noon Thursday.

The bandits walked into the institution and ordered Ferguson to "stick up" his hands. Instead, he fell to the floor and shouted a warning. The bandits fled outside and escaped in a black auto.

Ohio state police, Columbiana county, O., authorities and Ferguson came here last night. However, Ferguson failed to identify any of the trio as a member of the bandit gang.

The New Castle youths claimed they were in Pittsburgh while the attempt was being made to rob the Ohio bank.

## Detroit Evangelist Preaching Tonight

Crowd Heard Dr. Zoller At  
Second U. P. Thursday  
Evening

The New Castle public last night heard one of Detroit's leading evangelists, Dr. John Zoller, preach at a special anniversary service the City Rescue Mission sponsored in Second U. P. church.

Tonight Dr. Zoller speaks again at 7:30. Preceding his message will be a 15-minute organ recital by Mrs. Gomer Emery, and the Welker sisters will sing.

Superintendent Archie Gibson learned today that Mrs. William Sunday, widow of the great evangelist, cannot be here for services on Sunday. While a change in her preaching route has taken her to California, Mrs. Sunday, a friend of Mr. Gibson, offered to fly to New Castle from Los Angeles, "if it is absolutely necessary that I be there".

## RETONGA KEPT HIM ON THE JOB SAYS MORTON

Indigestion, Headaches,  
And Toxic Pains Had  
Steel Man Worried—  
Retonga Brought Happy Relief.

Mr. George J. Morton, well known resident of 211 Chartiers Ave., McKees Rock, and for eleven years a valued employee of Lockhart Steel Co. is among the latest to put Retonga to the test in his own case and come forward with his strong public endorsement of this widely-used medicine.

"Retonga is the most remarkable medicine I ever saw," declared Mr. Morton. "I had been a victim of constipation for years and was forced to take strong purgatives regularly, but they gave me little relief. Gas and bloating after meals, headaches and a tired, sluggish feeling preyed on me until I could hardly stay on my job. Toxic wastes in my bowels seemed to keep me feeling miserable with headaches and I was so nervous it was hard for me to sleep."

"Retonga soon relieved these distresses and gave me a fine appetite. My nerves are quiet. I sleep the whole night through and my strength and resistance are ample to do a good job every day. I wish I could tell everybody about Retonga."

Retonga is a purely vegetable stomachic medicine combined with Vitamin B-1 for digestion, nerves and strength. Accept no substitute. Retonga may be obtained at Pay-Less Cut Rate.—Adv.

### Quartet Concoct Unusual Swindle, But To No Avail

(International News Service)  
 COLUMBUS, O., March 14.—The city slicker who sold the Brooklyn bridge to the gullible traveler, had nothing on this Negro quartet. Police charge them with dismantling a four-story building, carting away the material in a truck, and then selling it pie by pie to the original owner.

The quartet, allegedly, carted away plumbing fixtures, metal sheathing, window and door frames, radiators, steam pipes and even elevator equipment, and then sold the materials for junk to the Goldberg Iron Co.

The owner of the recently deserted building, Arthur G. Libby, has a half interest in the latter company.

The four youths, Gean Pickett, 19; Leonard Hebon, 25; Charles Cooper, 19, and Frank Dunlap, 19, were arrested while tearing up the floor of the building, police said.

Brought to headquarters, they assertedly confessed carting five truckloads of material away from the building before their arrest. They were held under \$5,000 bond each.

### Mediation Board To Be Announced

(International News Service)  
 WASHINGTON, March 14.—President Roosevelt revealed today that he hopes to be able to announce the set-up of a national mediation board to handle labor disputes in defense industries some time next week.

Mr. Roosevelt told his press conference that he was going to confer with Philip Murray, CIO chieftain and William Green, president of the AFL, before he completed his study of the mediation board plan as recommended by defense leaders.

The president, in answer to a question, said that his conferences with Murray and Green should not be construed as any attempt to get the two labor organizations together.

### LOCAL U. S. RESERVIST HONORABLY DISCHARGED

Arthur Llewellyn, of North Liberty street, of the army reserve, who was called up for service about a month ago, has been honorably discharged, and has returned from Aberdeen Proving Grounds, Maryland, where he was stationed. Mr. Llewellyn, had completed three years of service, two and a half years ago, in the U. S. Signal Corps. He is in the employment of the B. and O. railroad.

### Denies Report Of Ships Being Sent To Great Britain

(International News Service)  
 WASHINGTON, March 14.—President Roosevelt today branded as entirely inaccurate, published stories which said that 99 warships, and 400 cargo and naval vessels would be sent to Great Britain this year under the aid program.

The president said absolutely no consideration had been given to any type of ship or any specific number of ships, that might be turned over to Britain or her allies. The chief executive conceded that this problem might come up in the future but asserted it was not now specifically before the government.

**MUSCLES NO PROOF**  
 Don't jump to the conclusion that the boys with the big rippling muscles turn in the best day's work, advises Felix Johie, personnel officer of the Chicago Cook County Forest Preserve district. Said he in an address: "The men with the big, bulging muscles is not always the best workman. Too often he loaf around displaying his brute strength while the less brawny do the work for him."

The earth travels approximately 18 miles a second in its journey around the sun.

### A Friend in Need

With New York buried under a twelve-inch blanket of snow, the job of directing traffic was an arduous one, but Patrolman James J. Armstrong found time to rescue this lost and bewildered pup and give him shelter. Later it was reclaimed by its owner. (Central Press).

### DR. RUTH HUGHEY WILL BE SPEAKER AT COLLEGE EVENT

(Special To The News)  
 NEW WILMINGTON, March 14.—The New Wilmington chapter of the AAUW will hear Dr. Ruth Hughey of the English department of Ohio State University at its meeting Tuesday evening, March 18, at 8 o'clock in Browne Hall, Westminster college.

Dr. Hughey, former holder of an AAUW fellowship in England, while studying Elizabethan poetry in the British Museum, found a tiny book written by Queen Elizabeth hidden away in a locker. Dr. Hughey's subject will be "Research and the Spirit of Free Inquiry" and will be under the sponsorship of the AAUW fellowship committee.

**HARBOR JUNIOR CLUB**  
 Members of the Harbor Junior Garden club will meet on Saturday afternoon, March 15, at 2 o'clock in the home of Hazel and Mary Lou Vannatten on the Harbor road. Roll call will be answered with an original garden verse. Robert Pinkerton will give a talk on "House Plants."

The name of the state of Florida comes from the Spanish, meaning "covered with flowers."

# Artillery Brigade Is Reviewed At Shelby

By JOHN BALL  
Special Correspondent  
CAMP SHELBY, Miss., March 11. (AP)—The first time in the history of the army in which a brigade of artillerymen composed of three regiments were led in review entirely by non-commissioned officers.

This unusual and colorful event occurred yesterday afternoon when the 141st, 166th and the 190th regiments of the 73rd Field Artillery brigade paraded in "pass-by" New Castle's Battery F and Service Battery of the second battalion in full regalia as units of the 190th regiment were very much in evidence with polished leather and glittering buttons of their uniformed ranks flashing in the brilliant Mississippi sunlight.

The parade was led by Master Sergeant Herman S. Perry, brigade sergeant-major from Philadelphia, Pa., who acted as commanding officer. Following the commanding officer and his staff came the headquarters battery of the 73rd brigade, headed by First Sgt. Walter Durfour, also of Philadelphia.

Next in the parade marched the 141st Field Artillery, composed of former National Guardsmen from New Orleans, La., with their smart military band. Master Sergeant Arthur Hesford, sergeant-major of the 190th regiment from Altoona, Pa., acting as colonel, directed the battalions which included the men of Battery F and the Service Battery in the line of march past the reviewing stand. Sergeant Hesford was capably assisted in this duty by New Castleites who also acted as commissioned officers. Leading Battery F was First Sergeant Willard Miller, acting battery captain.

From the Service Battery the acting commanding officer, First Sergeant James P. McGivern, conducted his men in the precision movements with the aid of Supply Sgt. Albert Weber and Mess Sgt. Carl Kirkwood acting as lieutenants.

The 190th brass band preceded the batteries of this regiment and were followed in the line of march by the 166th regiment.

The men, 2200 strong, passed with eyes right saluting Colonel Samuel

to chicken tuberculosis than the chickens themselves.

The Bureau of Plant Industry placed 50 chickens and 31 hogs, all negative to the tuberculin test, in a pen with 50 tuberculous chickens. The pen was built with wire mesh for the top as well as the sides and equipped with elevated feed hoppers and roosts for the chickens.

After the hogs and chickens had been exposed to the infection for a year they were tested with tuberculin and 93.5 per cent of the hogs and 54 per cent of the chickens reacted.

REV. J. A. TINKER  
ACCEPTS CALL FOR  
ANOTHER YEAR HERE

Rev. J. Albert Tinker, pastor of the Matland Memorial Primitive Methodist church for the past four years, has accepted a call to serve this church for another year.

Mr. Tinker has been most successful during the past year, especially

with the young people. In addition to his work in the local church, he has organized a mission just outside of Butler. At present, ground has been broken and the foundation laid for this new church, to be known as the Bates Primitive Methodist church.

## Chinese Laundryman Gone With Draft, But Just Where Did He Go

(International News Service)  
PITTSBURGH, March 14.—Army officials and members of Pittsburgh's Chinese Tong got together today in a search for Lee Cheek Wee, 31, McKeesport Chinese laundryman and first of his race to be drafted into the army here. Served in yesterday, he was to have been entrained for Fort Meade, Md. last night. Late yesterday afternoon, however, his friends gave him a rousing send-off and put him on a street car. Pittsburgh-bound after the army had allowed him a few hours to close up his business.

## Seek Funds For Brockton Victims

### Fire Chief Thomas Asked To Raise Funds To Assist Widows Of Firemen

Fire Chief James E. Thomas of the New Castle department has been asked to raise funds locally to assist the 12 widows and 26 children who were bereaved by the theater fire in Brockton, Mass., Monday, when the 12 were killed as the roof of the burning theater collapsed under the weight of heavy snow.

Any persons from New Castle wishing to contribute to this fund are asked to leave their money at any of the city fire departments, and Chief Thomas will see that the money is sent to the families of the fire victims. The appeal was received from Mayor Fred D. Rowe, chairman of the disaster relief committee of Brockton.

### DINNER MEETING

At a beautifully decorated table in keeping with St. Patrick's day a dinner was served by the Women's Division of Christian Service in the township building, Wednesday at noon, with places for twenty-five. In the afternoon the president, Mrs. Emma Raub, presided at the business meeting, with the secretary, Mrs. Hannah Phillips, and treasurer, Mrs. Elizabeth Felger, giving favorable reports for the quarter. Plans were made for the society to do sewing of articles to be sold and the proceeds applied on the budget. Two new members were added to the roll, Mrs. Bertha Sedgwick and Mrs. Peggy List. Special guests were Mrs. Hannah Kretzer of Tent Hall, Mrs. Amanda

Filby, Mrs. Peggy List, Mrs. Bertha Sedgwick, and Reverend and J. H. Gresh. The program was under the leadership of Mrs. Olive Book with Mrs. Ada McCollough giving a talk on Africa. Mrs. Mary Louder a reading of India. Mrs. Ethel Kuhn a paper on the Philippines. Florence Nicholls a reading on China, and Mrs. Marie Biddle a reading of Korea. Mrs. Book had a questionnaire with all taking part and it proved very interesting. The meeting was closed with a song followed by all repeating the Mispah Benedict. The April meeting will be held in the church the second Wednesday evening of the month.

### BIRTHDAY PARTY

Mrs. Priscilla Stanley, of Erie street, was pleasantly surprised Tuesday evening when members of the Women's Missionary society, of the Christian church, and a number of other friends dropped in to help celebrate her 66th birthday anniversary. Hours were enjoyed with chat and singing, with Mrs. Adda Jones at the piano. At an appropriate hour a delicious lunch was served, with places marked for 32 guests. Out of town guests at the affair were Mrs. Belle Stanley and Mrs. Mayme Ashton of New Castle, Mr. and Mrs. John Kerr, Mr. and Mrs. George Benson, Mr. and Mrs. Lee Donaldson and children of Bessemer.

### EDENBURG NOTES

## Kirkpatrick Heads 'Manpower' Group

Industries Will Safeguard  
Workers In All Defense  
Operations

Ross H. Kirkpatrick, superintendent of industrial relations here for the Carnegie-Illinois Steel Corp., today was appointed chairman of the Lawrence county division of the National Committee for the Conservation of Manpower in Defense Industries.

Kirkpatrick immediately named

four industrial leaders to serve with him, and outlined a plan of action. The county group will function under Ross L. Leffer, Pittsburgh, district chairman of the national committee.

Serving with Kirkpatrick will be James M. Smith, Jr., secretary and assistant treasurer of Shenango Pottery Co.; Clark Rossiter, superintendent of the Pennsylvania Engineering Works, Wesley Davy, superintendent of the Lehigh Portland Cement Co., and Harry Davies, director of personnel for Johnson Bronze Co.

"Industry is being asked," Chairman Kirkpatrick explained, "to throw up every safeguard around the worker so that his production will not be halted by accident. It is vital at this time of national emergency to keep the flow of defense production uninterrupted."

(From the Medical Society of the State of Pennsylvania)

Where is the Region of Doubt in the human body?

It is the area of the low back pain.

Pain in this section is difficult to diagnose.

Low back pain may be caused by muscular injury.

Injury to supporting ligaments may bring on low back pain.

It may result from derangement of joints of the vertebrae.

Or injuries of the discs between the vertebrae.

Low back pain may come from tuberculosis or arthritis.

Conditions of the low back cause must disabing of workers.

Such pain may follow a former, sometimes forgotten, injury.

Heavy weight lifting or a previous fall may explain the pain.

Treatment is not routine—each case is an individual one.

Minnesota's Red Lake is the largest fresh-water body in any single state of the Union. It contains 274,994 acres.

**THIS THIEF WILL BE SORRY THAT HE STOLE PIGS**

(International News Service)

NEW ORLEANS, Feb. 28.—The thief who stole the five guinea pigs from Touro Infirmary's experimental building will probably get his just desserts or more—in this case a serious malady—despite a personal warning published by the hospital doctors.

It isn't the pigs, but the germs the doctors don't want carried around.

"These guinea pigs are inoculated with tuberculosis germs and persons holding them will be exposed to the disease," the hospital superintendent said.

So valuable is chinchilla fur that skins, though very small, bring more than \$125 each.

## Dr. Dafoe's Column On The Quintuplets And The Care Of Your Children

(Copyright, 1941, King Features Syndicate, Inc.)

### ERRONEOUS IDEAS ABOUT PRENATAL INFLUENCE

An old friend of mine who has been a doctor in a large city for a good many years was telling me not long ago about a rather unusual experience of his. He had attended a woman with a birthmark shaped like a cross.

This event didn't impress the doctor much, because he was used to seeing birthmarks in various shapes on newborn babies, and he knew that they had no significance or importance unless they were so bad as to conspicuously disfigure the child. He saw the mother and child a couple of times, and then didn't see them again for about a month. This time when he called he was witness to a spectacular drama.

He found the mother in a very nervous condition. The cross-like birthmark on her baby was the upsetting factor. The mother now recalled that when she was carrying the child, at about five months, she had a vision. She had seen angels surrounding an archangel who carried a flaming sword. As she told the story, she got very excited.

Of course, when the doctor sought to calm her by telling her that birthmarks aren't the result of such impressions, the mother wasn't satisfied. She called in another doctor to attend her. The first doctor, however, and learned from him that the poor woman finally had to be placed in an institution for treatment.

I myself have had mothers and fathers become upset over birthmarks on a baby and have had to do a lot of persuading to convince them that birthmarks have absolutely no significance. Yet even well-informed, educated people still believe that prospective mothers should spend hours listening to music, or gazing on beautiful paintings, in order to be sure the right prenatal influences are exerted to make children talented.

Actually, an unborn baby is about as isolated from external impressions as anything could be. He floats around on a cushion of amniotic fluid within his mother's body. Even through his mother he has no contact with the outside world, for we know of no way in which an impression received through any of the mother's five senses, could be passed on or con-

veyed to her baby. There just isn't any nervous connection between mother and child at that time, and we know too that even their blood streams are entirely separate.

A few years ago, when prenatal influence got to be something of a fad, I attended a pregnant woman who drank quite a lot. I remonstrated with her, and her excuse was good: "Oh doctor," she said, "I have a craving for liquor, and I must satisfy that craving. If I don't, you know my baby will crave liquor too."

## K. Of C. Banquet Monday Evening

St. Patrick's Day Banquet-Program Arrangements Completed For Knights Of Columbus

At the regular meeting of the Knights of Columbus, arrangements for the banquet to be held on St. Patrick's Day, Monday, March 17, at 6 o'clock, were reported completed.

The event will be held in the K. of C. Home, North Jefferson street. Rev. Fr. Leo S. Watterson will pronounce the blessing, and following the delicious banquet dinner will be a chicken-a-la-king special dinner.

Short addresses will be given by the visiting clergy, and the principal speaker will be the Rev. Fr. Enright of St. Bede's church of Pittsburgh, who will also show moving pictures of Ireland, taken on a recent trip. Fr. Enright will also show motion pictures of the Eucharistic Congress held in Budapest. Father Watterson will give the closing prayers.

Committees for the St. Patrick's Day banquet are as follows: Sergeant Owen E. Tighe, general chairman; Joseph Flynn, assistant chairman; John V. Gallagher, secretary; decoration, Edgar J. Reig, chairman; Francis J. Augustine, Richard Burke, Joseph Hannon and Sergeant Tighe; reception, James Agan, chairman; Luke Eagan, Richard Hannon and

John Carlin; program, William Howley, Sr.; banquet—Mrs. Rose Tighe, chairlady; Mrs. Helena Augustine, Mrs. Marie Dougherty, Mrs. Joseph Flynn, Catherine Nugent, Rita Reig, Mrs. Mary Hafner and Mary Alice Carey.

William Howley, Sr., is the banquet chairman and Francis J. Augustine is the toastmaster of the occasion.

## MYSTERIOUS CRUTCHES

(International News Service)

**BOSTON**—The Boston & Maine railroad is wondering whether one of its coaches provided the setting for a miracle. A trainman, searching the coach at the end of a run,

found a pair of crutches—adult size, in good condition. Other members of the crew were questioned, but none recalled seeing a cripple leaving without the crutches. There has been no inquiry concerning the loss of a pair of crutches.

**MILLBRAE, Calif., Feb. 12**—Thieves who broke into a golf driving range at Millbrae ignored valuable golf clubs, balls or other property, and took only one item—the police dog which had guarded the premises for several years.

IF THE front page of your paper is depressing, get a new Spring suit at Richman's. It will do you more good than a tonic.

You've never seen such clothes before. The colors are blended with amazing skill and good taste. Note particularly our fashion-leading Kilkenny Tweeds and MacFarland Cheviots.

These rough fabrics lead the style parade, but don't overlook our Everwear Worsteds... those long-wearing, shape-holding materials that hold a press so well and look so dressy, too.

Come see them. We have every new model, as well as every new fabric, in topcoats and suits, all made by the Richman Family, and believe it or not, the price is still \$22.50.

## SEVENTH WARD NEWS

### Set Up Power Sewing Machines At N. Y. A. Center

Big Sewing Room At Resident Center Must Be Rewired For Machines

According to Mrs. Rose Simonis, resident director of the Crawford-Oakridge N. Y. A. Resident Work Experience Center, stated today that all of the power sewing machines have now been put up in the big sewing room at the center.

Sometime ago, 15 new sewing machines were sent to the center, but because of a delay in parts, the machines were not set up at that time. At the present, plans have been made to rewire the sewing room in order that all of the machines may be used.

With the installation of the machines, a new project will be added at the center. The girls will make garments of clothing for needy people, and at the same time learn to operate the machines, which are regular manufacturer's models.

### Emily Turner In College Concert

Miss Emily Turner of the Seventh Ward will play in the Ohio Wesleyan symphony concert to be given in Gray chapel, March 16.

The concert will feature Miss Sally Moore, senior, as organ soloist. Charles Tesar, instructor in public school music, will direct and Romine Hamilton, instructor in violin, will be concert master.

Miss Turner, daughter of Mrs. A. R. Morones of 505 West Clayton street, is a member of the Mu Phi Epsilon, national music honorary.

### BITS OF NEWS IN WARD AREA

A chart showing the departure of trains carrying mail from the Seventh Ward post office, is posted in the lobby of the office, where patrons may easily consult it.

Increase in circulation at the Mahoningtown library indicates that many people are taking advantage of the fine branch library on East Madison avenue. New books are continually added to the already large stock of volumes.

Police protection for youngsters attending Mahoning school is given both at the opening and closing of school each day and at noon time. An officer directs traffic for the students at the intersection of Cherry and Liberty streets.

The Mahoning Mustangs basketball team is trying hard to make a place for themselves in the city-county tournament. The Mustangs put a feather in their cap recently by defeating the Booker T. Washington team.

Items for the Seventh Ward news column may be left at Solomon's news stand, North Liberty street.

### M. E. G. AUXILIARY AT HAMILTON HOME

Mrs. Frank Hamilton, West Clayton street, entertained members of the M. E. G. Auxiliary of the Mahoningtown Presbyterian church in her home Thursday evening. A dinner menu was served at 6:30 o'clock.

Following persons took part in the evening program: Mrs. Paul Bender, Evelyn Marshall, Mrs. P. A. Gibson, Mrs. H. E. Alexander and Miss Ethel Scheidemann.

Co-hostesses were Mrs. G. O. Scheidemann, Mrs. Raymond Fisher and Mrs. Manley Broadus.

Next meeting on Thursday, April 3, will be held at the home of Mrs. Harold Swisher, Park avenue. Mrs. H. E. Alexander will be co-hostess.

### DAVY IS ACTIVE

According to word received here, Samuel Davy, son of Mr. and Mrs. Q. E. Davy, North Cedar street, has commenced his duties as news editor for the Lehigh university school paper, at Bethlehem, Pa. Davy is an electrical engineering student at Lehigh.

### Mrs. L. H. Anguish Passes Away In Ohio

Mrs. L. H. Anguish, of Shawnee, O., died Wednesday in Columbus after an illness of several months. Mrs. Anguish is survived by her brother, H. O. Spurrier, of North Cedar street, this city.

Funeral services will be conducted Sunday, from the home in Shawnee, and Mr. and Mrs. I. D. Wagner, North Cedar street, plan to attend.

### AUXILIARY MEETS AT LEGION HOME

There was a good attendance at the meeting of the Grand International Auxiliary to Brotherhood of Locomotive Engineers, held Thursday afternoon in the American Legion Home, North Jefferson street.

After the business period, games of 500 and bridge were provided for entertainment.

Refreshments were served by Mrs. H. H. Taylor, Mrs. C. D. Wharton, Mrs. L. M. Wilkinson and Mrs. R. W. Wilson.

Next meeting will be held on Thursday, March 27, at the Legion Home.

### GIRL SCOUTS MEET IN METHODIST CHURCH

The Girls Scouts of troop 25 held a regular meeting in the basement of the Mahoning Methodist church Wednesday evening.

Marian Unangst spoke to the girls regarding the coming cookie sale. Janice Arble received her silver attendance badge. Games were played and the girls sang "Taps" to close the meeting.

Scribe, Gloria Stritzinger.

### MEETING TONIGHT

Members of the Crusaders class of the Madison Avenue Christian church will meet tonight at the home of Ella Ringer, North Cedar street.

### MEETING CANCELLED

Meeting of the W. A. G. club that was scheduled for Thursday of next week has been cancelled until April.

### SEVENTH WARD PERSONALS

Mrs. J. M. Dick, Philadelphia, is visiting relatives and friends in the Seventh Ward.

Mrs. Viola Gubellis, 310 Fourth street, has been discharged from the New Castle hospital.

David Palkovich, Mahoningtown R. D. 7, has returned to his home from the New Castle hospital.

Mrs. Rose Cangey and son of 108 Montgomery avenue have been discharged from the New Castle hospital.

Jesse Boak, rural carrier for the Mahoningtown post office, has returned to his duties following an illness.

Mrs. Tom Rainey of North Liberty street has departed for Lancaster, Pa., to visit her son Thomas, who is a student at the Bowman Technical college.

Mrs. F. Lombardo of South First street has departed for Beaver Falls, where she will visit her son, and later her brother, the latter residing at Canton, O.

Mrs. Anna DePiero of Akron, O., was a visitor at the home of Mr. and Mrs. Sam DePiero of West Cherry street for several weeks.

Cy Strawhecker, North Liberty street, is reported to be getting along nicely at his home where he is recovering from an illness.

Mr. and Mrs. Rudy Ellery of Akron, O., have concluded a visit at the home of Alderman and Mrs. T. C. Rainey, North Liberty street.

### Pittsburgh Hears Milk Strike Threat

President Of U. F. A. Gives Warning At Conference In Pittsburgh

(International News Service) PITTSBURGH, March 14—Warning that "we can't work any longer for nothing," the United Farmers of America threatened the Pittsburgh area today with a milk strike unless present prices are maintained.

Joseph C. Haering, president of the UFA, declared at a milk commission hearing before the milk commission.

"We are going to probably do what we don't want to do. That is withhold shipments of milk coming into the Pittsburgh marketing area. We don't want to do this, but it looks like we might be forced to do it."

"We are organized strong enough to make that threat good."

Higher farmer labor costs due to the draft and the defense program were cited by the farmers seeking to prevent the customary summer drop in prices. The present winter scale of \$3.00 per 100 pounds was urged as a summer price also.

"Under the existing price orders, Class I milk, constituting the milk of mild sold, would be cut from 13 cents to 12 cents a quart, beginning May 1. The producers price would be reduced from \$3 to \$2.70 per hundredweight. The winter prices would be re-established in September after the heavy production period is over."

### Marriage License Applications

Paul Griffith 126 Richelleu avenue, New Castle; Marian Nelson, 40 North Mill street, New Castle.

### ATTENDS SALES SCHOOL

John G. Kendall, manager in New Castle for the Kalamazoo Stove & Furnace Co., is in Pittsburgh, where he is attending a special sales school. Accompanying Mr. Kendall to Pittsburgh was Miss Katherine Lewis, of the local branch.

### Titans Turn Tables On Victors Of Year Ago In 1940 Season

Only Victor Of Year Ago Yet To Be Beaten This Year Is Long Island

First Foe In Tournament At New York Happens To Be This Team

Back in November Westminster college's basketball team commenced to grid for the long grind ahead. In the dressing room the Titans joined hands and vowed that they would whip every opponent that plastered a loss on the 1939-40 combination. The task was a Herculean one, considering the fact that the Titans had dropped seven verdicts, losing to Pitt, Geneva, Washington & Jefferson, Waynesburg (twice), West Chester and Long Island university.

The season began and the localists started to move like an army tank, trampling everything in sight. Pitt, the first combination to whip the locals last season, 47-35, was handed a 41-36 setback. Next came Geneva, a 39-38 winner in 1940. The Titans carved another niche in their victory club 55-40.

**Top Jackets Twice**  
Washington & Jefferson emerged with a 48-47 nod last year. This season the Titans romped off on the winning end, 44-37. The fourth victim was Waynesburg, which twice halted the Titans, 42-38 and 48-45. The Lawrence countians squared accounts with the Jackets, 36-39 and 47-44. West Chester, which surprised by pasting a 44-42 loss in 1940, was an easy victim, 54-35.

The Titans had averaged six of the losses. There was still another left, but the season was over. Then fate stepped in. Westminster was being considered for an invitation to appear in the Metropolitan cage tournament. Even at that, the seventh victim would be missing, the Titans reasoned. The Pennsylvania champions were rewarded with a bid to the tourney.

**Draw Long Island**  
A few days ago the committee in charge of the gigantic roundup met for the drawing ceremonies. Here fate stepped in again. The Titans drew none other than Long Island university, the seventh and last club to defeat Westminster in 1940! Wednesday's task will be the

toughest of the campaign for the Pennsy. champs.

Long Island, winner of 22 out of 24 has one of its best aggregations, according to New York operatives. Captain "Si" Lobello, who played an important hand in the Blackbirds 1940 victory over Westminster, 47-42, has set a new scoring record at L. I. Lobello has disturbed the lace for 1,017 points during his career. Lobello is definitely the man the champs will have to halt.

In winning 22 triumphs the Beecolled five averaged 53.24 points per clash, limiting the opponents to 37.2 markers per session. Rice Institute was the only club to pile up more than 50 points, but was defeated. Long Island's foes amassed 930 points during the season.

**Record of Year**  
Westminster's record for the season follows:

Titans 50, Alderson-Broadbuss 42.
Titans 49, Slippery Rock 28.
Titans 41, Carnegie Tech 27.
Titans 45, Indiana Teachers 34.
Titans 42, Youngstown 29.
Titans 41, Pitt 36.
Titans 52, Geneva 47.
Titans 54, Bethany 27.
Titans 44 W. & J. 37.
*Titans 37, Indiana Teachers 38.
Titans 47, Waynesburg 44.
Titans 54, Juniata 25.
Titans 54, West Chester 35.
Titans 51, Millersburg 48.
Titans 61, Juniata 32.
Titans 56, Waynesburg 39.
Titans 49, Youngstown 48.
Titans 55, Geneva 40.
Titans 54, Bethany 47.
Titans 55, Slippery Rock 53.
Titans 60, Carnegie Tech 40.
Titans, 1,051 points, opponents, 794.

\*Only loss in 21 games.

Phil Marchildon, right hand hurler, bought by the Athletics from Toronto, admits he has too much stuff some games. In a game against Newark he walked 10 in seven innings but also struck out 10, fanning the side twice with the bases loaded, once with one out, once with none out.

George D. Widener, one of the country's most successful breeders of race horses, though his stud is limited to about 25 mares, has booked two mares to Zacaueista for the 1941 season. Widener owns the top handicap horse, Eight Thirty, and the stallions St. James and Jamestown.

### Hamel High Point Scorer For Titans In "Tank" Team

(Special To The News)  
NEW WILMINGTON, March 14.—Charles Hamel, former Carrick high star of Pittsburgh, was chief point-getter for the Westminster college tankers for the past season, with 86 points scored on 11 firsts and 7 seconds. Hamel's points were scored in the dashes, the 440, and medley-relay.

Other Westminster swimming-point-getters include William Scheid, Philadelphia, 60 points; Harry Browncombe, Aliquippa, 36; Don Brooks, Erie, 30; Bob Flickinger, Canfield, Ohio, 30; Chalmers Houston, Bon Avon, 26; Dick Long, Edgewood, 4; and Paul Meckelson, Barberton, O., and John Geary, Mt. Lebanon, one point each.

Three of the Titans best swimmers are freshmen, Hamel, Scheid, and Brooks. The Titans won three out of ten meets on their 1940-41 schedule. Coach Joe Ferris, with only one loss from his squad this year, Harry Browncombe, senior, expects to pull his tankers over into the win side of the column in the majority of meets next year.

### Gus Collegians Trim Bronzers

The Gus' Collegians the "dark-horse" entry in the Class A division of the city-county basketball tourney, on Wednesday night walloped the Johnson Bronze a Class B entry in the tourney in a non-tourney game at New Wilmington 72 to 32.

At the half the Collegians led 34 to 14. "Chinkie" Dutkin and Tom Carey both of the Slippery Rock college varsity had 24 points apiece. Jameson and Tommy Strausbaugh were the Johnson Bronze stand-outs.

Monday in the tourney at Washington high floor the Collegians will battle the Gerson team in the feature Class A attraction on the nights card.

Back stage with Westminster College's Pennsylvania champions:—  
Every member of the Titan squad is working his way through, and not by selling brushes or magazines. The athletes serve as waiters in the new Ferguson Hall dormitory. In this capacity, the flippers are busy juggling kitchen ware from 7 to 8 in the a.m., from noon to 1:30 and from 5:30 to 6:30 in the evening. Then, it's time for basketball drills. After that, a date with the girl friend? No. It's bedtime. With that kind of a schedule, Coach Washabaugh has no reason to worry about disciplinary problems.

Coach Washabaugh ranks as one of the most superstitious mentors in the collegiate ranks. The mentor will never forgive himself in he fails to lug around his favorite rabbit's foot. Hasn't missed in 14 years. He places implicit faith in the paw. With the Metro cage tourney date nearing, the genial Washabaugh is having the missus shine the piece. "I'll need a couple of good luck charms for the tourney," the coach said jokingly.

When it comes to details, Washabaugh is a stickler to the "th degree. His various rules are quite unusual, but basically are loaded with logic. The boys, for instance, are barred from dipping into the school's pool, that is, during the cage semester. The athletes might catch colds. . . . When snow flakes park on the ground, Washabaugh insists that every member of the squad wears colored glasses. To protect the orbs. . . .

If one of the players gets a bad case of nerves during a game, Washabaugh soaks the player's hands in ice-water during intermission. Cools him off, Washabaugh says. . . . Occasionally, a jittery player has his pulse and temperature checked at intermission time. "Good psychological effect," says the chieftan. Members of the squad are all better than average students. Two of the Titan players are on the scholarship roll. The remaining members all have grades in the high C ranking or better. . . .

Westminster's biggest forte is team work on and off the floor. The athletes seem to be together at all times. What do you think the chief topic of discussion usually is? That's right, basketball. The word jealousy isn't even in the dictionary, so far as the Titans are concerned. It's an all for one and one for all proposition. . . . How do they feel about the coming game? "Just another game, only difference being the opponent, one of the best in the business," "uzz" Ridl asserts. . . .

Baseball:—If Wednesday's performance is an example of what to expect during the regular season, we feel sorry for the Philly fans and scribes. . . . In an intra-camp game, mind you, the Phils chalked up nine errors. . . . Jim Farley has just about tossed in the sponge so far as getting the Yankees is concerned. Ed Barrow, Yank head, says. Floundering that kind of lettuce is a task for anybody, especially to sink into a ball club with a war across the way. . . .

Van Lingle Mungo shouldn't have any regrets for being yanked by the Dodgers. Under the wing of Larry MacPhail during the past three years, Mungo drew down \$27,000. During the period, he won only nine games, an average of \$3,055.55 per victory. . . . Bob Logan, up again from the American Association, won 18 games with Indianapolis last season. He's with the Cincy Reds.

### Boston College Selects Myers As Grid Coach

(International News Service)  
NEWTON, Mass., March 14.—Denny Myers, newly appointed head coach of football at Boston College, comes to Newton today to sign his contract.  
Myers, 35, formerly line coach at Brown University, accepted the post vacated by Frank Leahy, who went to Notre Dame. It was reported he has been given a two-year contract at \$7,000 a year.  
Appointment of Myers ended a month of speculation. He was selected from a field of 100 applicants. Myers said he had several assistants in mind and planned to contact them.

### JUNIOR CHURCH LEAGUE

There will be four more games in the Junior church basketball league at the "Y" on Saturday. The first game will start at 4 o'clock and will find the Epworth team battling the First U. P. quintet. At 6:15 o'clock the St. Mary's team meets the First Methodists. The other two games are as follows: First Presbyterians vs Third U. P. and the Wesley Methodists vs First Christians.

### "ANGEL" AND JOE WRESTLE MONDAY

Former Notre Dame Grigger, Now Matman, Given Return Bout

JOE SAVOLDI

Only 72 hours remain until The Angel of Rheims, France, and Joe Savoldi of Three Oaks, Mich., meet in a 10, six minute rounds wrestling bout in The Arena. They met some time ago in Youngstown and The Angel kept his slate clean.

Savoldi is a former Notre Dame All-American fullback and claimed the world's heavyweight title when he threw Jim London. However, he since lost the title. The Angel, one Maurice Tillet, has not lost since his arrival in America.

Several weeks ago The Angel came here, conquered Albert Mills of England and since has been throwing opponents. Last Monday night in The Arena here, Joe Savoldi won from Bibber McCoy who was disqualified in the sixth round.

According to reports McCoy will appear in one of the other two bouts Monday night. His opponent will be selected today as will the other two grapplers who will appear here.

Because of The Angel's freakish appearance he has been much exploited. His appearance coupled to his ability as wrestling has made him matman's best attraction. Joe's prestige gained at Notre Dame has also helped him draw crowds.

### No Tourney Games Carded Tonight

Three More Games Monday, Gersons To Battle Gus Collegians In Class A Feature

There will not be any city-county tournament basketball games at the George Washington High floor this evening. The next three games in the tourney will take place on Monday night, the first game starting at 7 o'clock, and featuring the "Rens", a colored five, against the Genevans.

In the main game in class A the Gersons will battle with the Gus Collegians. It will be the first appearance in the tourney for either of the teams. The Collegians are made up of a combination of Slippery Rock and Westminster stars, along with a few local luminaries.

The third game Monday will wind up the first round of the class B tournament and will find the K. Pulaski Reserves opposing the Princeton quintet. This game will start at 9 o'clock.

So far the crowds have been very gratifying to the tourney committee. Quite a nice sum will be realized for the benefit of the New Castle Music Council, it is believed.

### Friesell To Speak At Geneva Banquet

BEAVER FALLS, March 14.—William H. "Red" Friesell, nationally famous football official, will be the principal speaker at the Geneva college athletic banquet to be held Wednesday evening, March 19, in the General Brothead hotel, Beaver Falls.

Over 60 athletes and faculty members will attend the dinner, which is also open to the public.  
A. C. Edgcombe, Covenant director of athletics, will act as toastmaster.

In the 1940 major league batting averages no home run will be found in the batting marks of such good strikers as Appling of the White Sox, Coney of the Bees, Aronovich of the Reds and Haseett of the Bees.

The outdoor track and field championships of the Central Collegiate Conference will be held at Marquette University, Milwaukee, June 6.

### Complain Dogs Being Trained On Ringnecks

Several complaints of dogs being trained on ringnecks that have just been released reports Frank L. Con.

These birds have been having enough trouble finding food in eight inches of snow and also attempting to hide from vermin. I think the birds should be left alone at least until the snow goes off.

The training season was extended in March to give the sportmen further chances to break dogs etc. We have occasional deep snows in March and a little judgment should be used in running dogs at that time.

One sportsman who has been assisting in feeding some of these released birds said that some are hard born in his feeding place and deliver the birds about half a mile from his feeding stations. If these birds had been planted long enough to have known their range they would come back but only have been released a few days would not find their way back to the feed.

The 1940 Michigan steel census showed an increase of nearly five per cent in the feminine anglers on the streams and lakes of the state, as compared with the previous year. Of more than 30,000 anglers interviewed, 11.6 per cent were women.

## Exciting Games In Tournament

Three Fast Class B Games  
In City-County Tourney  
Thursday Night

Three interesting and hard fought class B games were played last night in the city-county basketball tourney at the Washington High floor. All were first round games.

The New Castle Indies, led by Sammy DeLillo, Ben Franklin High star, and Cooper of the New Castle High team defeated the Wilkens A C team 43 to 27, scoring the largest number of points for any team in the tourney Thursday night. At the half the Indies led 23 to 12. Naples and Looie Santangelo also played nice ball for the winners. Best for the losers were Smith and Francis.

**Scorpions Come Through**  
The Scorpions gave a classy exhibition of basketball in the second game to defeat a hard fighting Bessemer Indies quintet 33 to 26. At the half the "Scorps" and Bessemer were all knotted up at 7-7. The first period ended 4-4. It was that kind of a game.

The Scorpions, led by Francis Pitzer, Christopher and O'Neil, opened up the third and fourth periods to outscore the Bessemer 26 to 19, giving them their edge by seven points. Scoring stars in the Bessemer lineup were Samsa, Kurler and Peltz.

**Carm A. C. Wins**  
In the third game the Carm's A. C. team bested the Johnson Bronze quintet in a fast and thrilling contest 25 to 21. At the first period it was the Carm team leading 6 to 4, and at the half it was tied up in a knot 13-13. The Bronzes tried hard the final period to catch up, but fell short by four points.

Jay Thomas "Coke" Rote and Chialfallo were the standout stars for the West Siders, with Tommy Strausbaugh and Bobby Jameson providing most of the points for the Bronzes.

It all happened when he was being questioned in connection with a series of purse snatchings in Newark.

Secor was identified by Miss Bettie Weintraub as the youth who robbed her of a pocketbook at the entrance of her home here.

He appeared in her office to return a key ring which had been in her purse and which, he said, he had found.

As he handed over the key ring, he blushed. It was at that moment that Miss Weintraub recognized the youth. For, she said, "he was blushing when he held me up, too."

## Senior Hi-Y Team Splits Two Games

Loses At New Wilmington  
Last Night And Wins  
Afternoon Contest

The Senior High Hi-Y basketball team split two games Thursday, winning from the Union Activities club team at 4:00 on the Union floor and then traveling to the New Wilmington floor where they lost to the New Wilmington Hi-Y in an evening game.

At Union the scoring was rather evenly divided, a slow start giving the Hi-Y an advantage their opponents could not overcome, though they cut the lead in the second half and outscored the Sr. Hi boys in the 4th quarter.

The New Wilmington team was led by Cathcart and Pearson, varsity players on the New Wilmington high team. Cathcart's play under the bucket netted him 18 points to lead for scoring honors.

**MINERAL USED IN SEALING OF DAMS SWELLS WHEN WET**

WASHINGTON—The lad, famed in song and story, who saved Holland by holding his thumb in a leak in a dyke through a long, cold night, probably would not have made the front page if the peculiar mineral known as bentonite had been available to the sturdy Dutch of his day.

Bentonite possesses the odd property of swelling considerably when wetted; for that reason it is now being used largely in the sealing of dams and reservoirs.

Bentonite, little used a few years ago, now finds a large consumption in the making of soap, paper, paints, cosmetics, foundry sands, and numerous other products; it is used for oil-well drilling mud, and as lining for irrigation ditches. Production in 1939 is reported by the Bureau of

Mines as 219,720 short tons, valued at \$1,702,393. Production comes largely from Wyoming, South Dakota and Mississippi.

**SAYS THERE IS NO CURE FOR HIGH BLOOD PRESSURE**

SACRAMENTO, Calif.—There is no cure for high blood pressure, said Dr. David Ryland of Stanford University. "The disease, high blood pressure, is not a disease but a symptom produced by many diseases."

"High blood pressure, like fever, is only a sign of disease. Until a few decades ago, fever itself was considered a disease, and scientists hunted in vain for a 'fever cure.' Now they cure fever by treating the pneumonia, typhoid, streptococcus or whatever infection is responsible for the fever."

"Among the known causes of high blood pressure are diseases of the brain, abnormal functions of hormone glands, and kidney diseases. Therefore, the way to relieve high blood pressure is to treat the infections or relieve the conditions causing it."
